Criteria 4.2.4

Method of computing the per day usage of library

Computerized method is using to calculate the per day usage of the library. Easylib Coud version e-library remote access system has been procured for library users to use library through e-access. In-out attendance through ID card system is using to calculate the per day user's footfall in library.

Average usage of the library = Total no of teachers and students in each day for all working days/Total no of working days.

Number of Faculty and Students using Library per day

Year	Method of computing per day usage of Library	No of users using Library through e-access per day Login data for online access	No of Faculty accessing Library Per day	No of student accessing Library per day	Total
2023-24	Computerized-ID Card	30	05	316	371
