## Report on

### World Mental Health Day Celebration

Date: 10th October 2023

Venue: Multi-purpose Hall.

Theme: "Mental Health is a Universal Human Right" - WHO

#### Introduction:

World Mental Health Day, observed annually on 10th October, serves as a global platform to raise awareness about mental health issues and promote mental well-being. In 2023, the World Health Organization (WHO) declared the theme as "Mental Health is a Universal Human Right." Indian Academy Degree College-Autonomous, recognizing the significance of this observance, took the initiative to organize a comprehensive event under the guidance of the Department of Humanities. The primary aim was to create a space for dialogue, learning, and engagement centered around mental health issues.

#### Event Objectives:

1. **Raise Awareness:** The core objective of the event was to raise awareness about mental health, emphasizing that mental well-being is a fundamental right for every individual. This objective aligns with the broader global effort to destigmatize mental health challenges.
2. **Promote Psychological First Aid:** Another key goal was to provide practical knowledge on psychological first aid, fostering a supportive community equipped to respond effectively to mental health crises.

#### Event Execution:

The event unfolded at the multi-purpose hall, commencing at 10 am. The ambiance was set by the creative efforts of BA students who adorned the college's main bulletin board with visually compelling displays, capturing the attention and curiosity of those in attendance. This visual representation not only added vibrancy to the event but also served as a precursor to the impactful discussions and activities that followed.

A Photography Contest, centered around the theme of mental health, allowed students to express their perspectives through the lens. The entries not only showcased the artistic talents of the participants but also revealed a profound understanding of the complex and nuanced aspects of mental health. The photography exhibition served as a powerful medium to communicate and connect with the audience, transcending language barriers.

Workshop on Psychological First Aid: A pivotal aspect of the event was the workshop on "Psychological First Aid," drawing enthusiastic participation from around 200 students. The resource person was Mr. Augustin Joseph, faculty of psychology, department of humanities. The workshop was meticulously designed to be activity-based, engaging participants in interactive sessions that delved into the practical applications of psychological first aid. The activities ranged from scenario-based role plays to group discussions, ensuring a holistic understanding of the subject matter.

The positive reception of the workshop was evident in the feedback received. Students not only enjoyed the dynamic and participatory nature of the sessions but also expressed a newfound appreciation for the importance of psychological first aid in everyday life. The workshop succeeded in bridging the gap between theoretical knowledge and practical application, empowering participants with skills to offer initial support to those experiencing mental health challenges.

#### Psychology Experiments and Stalls:

Moving beyond theoretical discussions, the event featured stalls set up in the college grounds where psychology experiments were conducted. BA students took the lead in organizing and executing these experiments, involving both students and teachers in hands-on activities. Some experiments served as interactive demonstrations, providing insights into various psychological phenomena.

The principal, Dr. N Thilaka, played an active role in the experiments, symbolizing administrative endorsement and support for mental health initiatives within the college. This active involvement of the college leadership contributed to the overall success and impact of the event.

#### Community Feedback and Future Outlook:

As the event unfolded, it became evident that the World Mental Health Day celebration struck a chord with the college community. Several students expressed their desire for the event to become a recurring feature in the college calendar. Their enthusiasm and engagement highlighted the importance of continuing such initiatives to maintain an open and ongoing dialogue about mental health.

The principal, in her address, acknowledged the significance of mental health awareness and expressed her commitment to incorporating such initiatives into the college's broader educational agenda. The positive energy and the desire for continuity indicated a cultural shift within the college, where mental health was no longer a peripheral concern but an integral aspect of student well-being.

#### Learning Outcomes:

1. **Increased Awareness:** Participants gained a deeper understanding of mental health issues and the significance of recognizing mental health as a universal human right. The diverse activities, from the bulletin board display to the photography contest, contributed to a multifaceted approach to awareness.

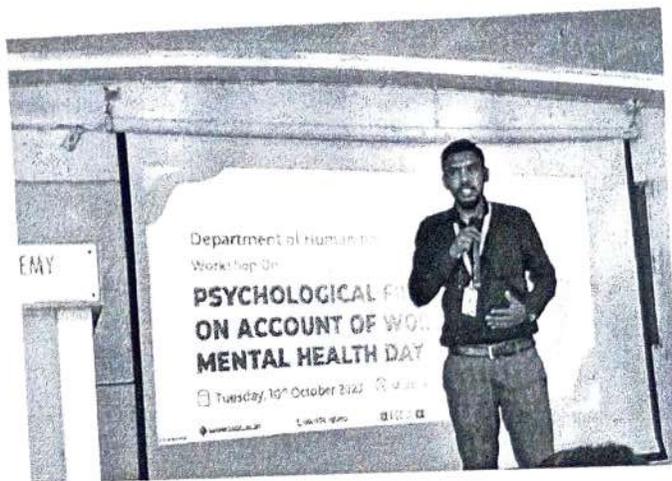

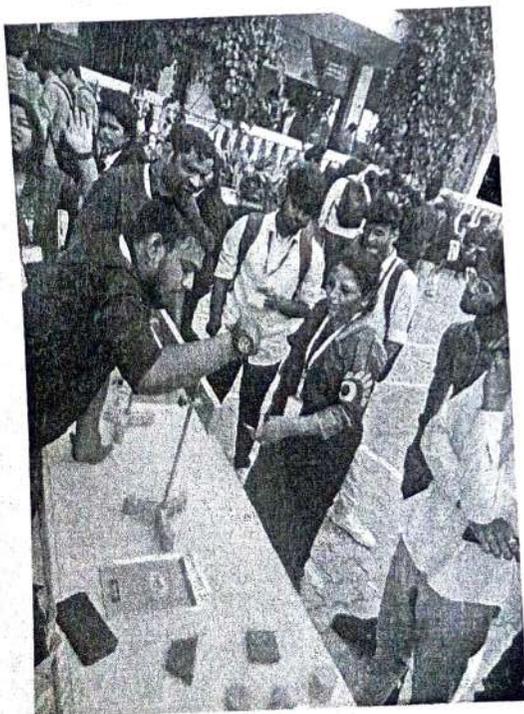

2. **Practical Skills:** The workshop on Psychological First Aid equipped students with practical skills to offer initial support to those experiencing mental health challenges. The interactive nature of the workshop ensured that participants not only understood the theoretical concepts but also gained confidence in applying them.

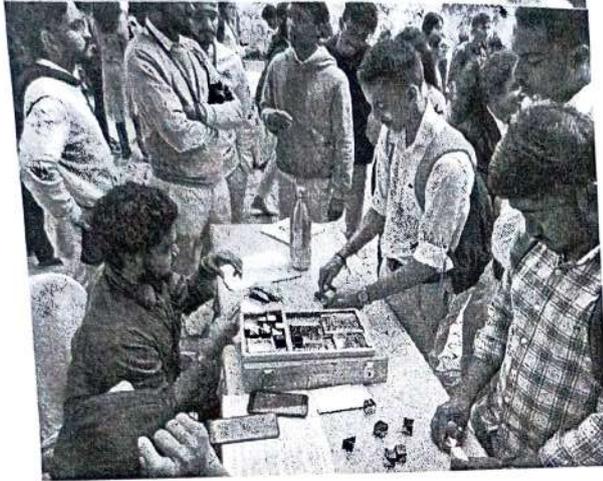

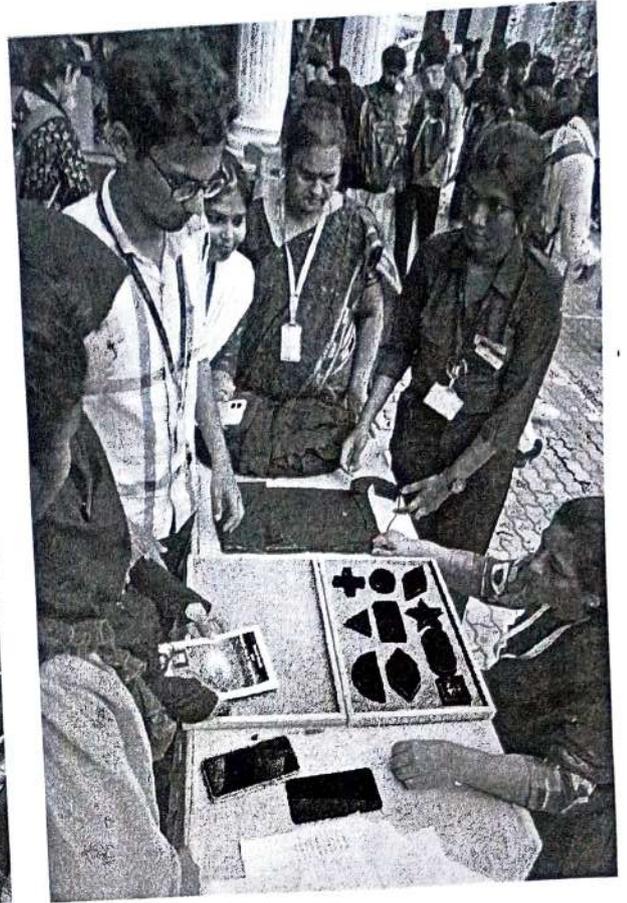

3. **Community Engagement:** The active involvement of students, teachers, and the principal demonstrated the importance of collective efforts in promoting mental health awareness within the college community. The participatory nature of the stalls and experiments encouraged a sense of shared responsibility for mental well-being.

#### Conclusion:

In conclusion, the World Mental Health Day celebration at Indian Academy Degree College-Autonomous was a resounding success, achieving its objectives and leaving a lasting impact on the participants. The event went beyond raising awareness to actively engage the college community in meaningful conversations about mental health. The multifaceted approach, incorporating creative displays, photography, workshops, and interactive experiments, ensured that the message of mental health as a universal human right resonated with a diverse audience. The success of this event not only underscores the importance of such initiatives but also sets a precedent for future mental health awareness campaigns within the college and beyond.

**Value Added Courses for UG Students**

**Academic year 2023-24**

## **About Value Added Courses**

Value-Added Courses (VACs) are additional educational offerings that provide students with skills and knowledge that are beyond the standard curriculum. Value-added programs can help students acquire additional skills and qualifications that are relevant and in-demand in the job market. They can also help students showcase their achievements and potential to employers and recruiters. At IADCA, these courses are offered every academic year to UG students across various programs. The courses typically consist of 30 hours of instruction and are taught by industry or academic experts.

Objectives of the Value Added Course are:

- to provide students with a well-rounded education that prepares them for success in their future careers.
- to provide students an understanding of the expectations of industry.
- to improve employability and inter-disciplinary skills of students.
- to bridge the skill gaps and make students industry ready.
