LEADERSHIP TRAINING CAMP FOR THE STUDENTS OF INDIAN ACADEMY DEGREE COLLEGE AUTONOMOUS

VENUE: Don Bosco Yuvakara Grama Ajjanahalli (Youth Skill Training)

AIMS:

- The main objective of this leadership training is to understand the quality and strengths of a person's leadership ability.

OBJECTIVES:

- To reflect on what leadership means at the turn of the century, having seen major changes in how organisations are led and how people work together to produce results.
- To understand leadership independent of what we know about management – on the assumption that leadership occurs in relation to followers, not as an exercise of authority.
- To focus on what we can learn from followers about leadership.
- To remove the mystique from leadership and relate it to what a wide variety of people are capable of doing.
- To describe leadership by beginning at the level of observation and to ask “what do leaders do when they lead?”
- To capitalise on well done observational studies already completed.
- To apply a method of analysis that has not been used, or used infrequently, to analyse the concept.

Report on leadership workshop:

The student welfare office organised a “Leadership Training workshop” for all the Class Representatives on 15th and 16th of November, 2023. The sessions were organised at “DON BOSCO YUVAKARA GRAMA” and there were various activities both outdoor and indoor arranged for the betterment and enhancement of the skills and knowledge.

The workshop was organised mainly with the objective to instil leadership skills among the class representatives. To enhance the skills of the leader such as interpersonal, team building, communication, decision making and self- awareness.

The session began at 10:30am and it started with the inaugural address by Fr. ANIL D’SA SDB, an inbuilt personality with amazing ethics and dignity and who embraced our minds and thoughts with motivation, enthusiasm and self-confidence. Fr. Anil explained the importance of employability and all the required qualities a leader should aspire. The students were informed on the various opportunities and responsibilities.

We had activities filled with communication, productivity, team work, creativity etc. Then, all that made it more interesting was the outdoor activities led by Fr. Anil and Roshan sir. They conducted various activities starting from listening skills, interaction activities, team building activity, leading the blind folds and much more. Each and every activity conducted had at most significance which thoroughly registered in the minds of the students. We had an amazing experience by trekking along with treasure hunt where all were too involved in the activity rather than sticking on to their mobile phones, enjoying the nature not worried about any artificial tensions or worries. The camp fire enlightened our lives with love and joy, where students had built up their confidence and took up all the challenges that came their way. We had refreshments, quality food was served with amazing taste and the ambience was something that kept us always fresh and active. We had meditation sessions and feedback sessions as well.

The students actually lived their lives without any worries, tension and especially were far away from the social media which helped them in developing relationships among the individual and got to know more about each and every individual.

Through these activities we learnt:

- Listening skills is the most important skill that one should in built.
- It's not about how big the problem is it's all about how patiently/calmly you find the solution.
- Life is a rhythm wherein we have to get set with the tune of the system that is in and around us. It's always better to GO WITH THE FLOW!!
- Both Team efforts and individual efforts everything is equally important for a healthy development.
- Active participation is always appreciated.
- Coordination and mutual understanding is very important.
- Leadership is vital
- Responsibilities are to be taken seriously and its importance was enhanced.

Thus, overall, it was an amazing experience to be a part of this workshop wherein each one of us got a lot to learn in these 2 days in the most effective way and we the STUDENT WELFARE TEAM look forward for many more such training sessions to be conducted in the upcoming months
