19.10.22

Department of Genetics is organizing a Guest Lecture for all the B.Sc (Life Sciences) and M.Sc students on 3rd Nov 2022 at 10.45am. Hence I request HODs to inform the same to the faculty members of your respective departments to permit the Students to attend the lecture.

Speaker	Topic	Venue
Dr. Mathivanan Jyothi Associate Professor Department of Human Genetics National Institute of Mental Health and Neurosciences (NIMHANS) Bangalore.	"Genome Editing and its applications".	SH-II

Objectives:

1. To enable the students to understand the structure and function of genetic/ epigenetic sequences.
2. To acquire in-depth understanding of stopping inherited diseases in its tracks.
3. To acquire knowledge on genome editing including faster and more accurate diagnosis, more targeted treatments and prevention of genetic disorders.

Learning Outcomes:

1. Students will be able to understand principles and mechanisms of RNAi and CRISPR-Cas9 technologies and their potential applications in biomedical research, agriculture and healthcare industries.
2. They will learn tools to design RNAi (siRNAs) and CRISPR (sgRNA) constructs to knockdown and edit genes of interests.
3. They will be able to design experiments to silence gene expression in various organisms and learn the ethical implications of genetic manipulation.

Department of Genetics

Report on Seminar titled "Genome Editing and its applications"

Speaker:

Dr. Mathivanan Jyothi

Associate Professor

Department of Human Genetics

**National Institute of Mental Health and Neurosciences
Bengaluru.**

Date: 03.11.2021

Time: 10:45 AM

Faculty in-charge: Dr. Shubha Bhadran

Objectives:

- To enable the students to understand the structure and function of genetic/epigenetic sequences.
- To acquire in-depth understanding of stopping inherited diseases in its tracks.
- To acquire knowledge and prevention of genetic disorders.

Event Summary:

The Department of Genetics, Indian Academy Degree College Autonomous organized a seminar on "Genome Editing and its Applications" for the benefit of B.Sc and M.Sc Life Sciences students. The session started at 10:45 AM with the introduction of the speaker. Dr. Mathivanan Jyothi commenced the session with introduction to genome editing and its tools. He defined genome editing as a type of genetic engineering in which DNA is inserted, deleted, modified or replaced in the genome of a living organism. Genome editing, namely, refers to editing the nucleotides of the genome with engineered nucleases in cultured cells or living organisms. Several types of engineered nucleases have been developed, including zinc

finger nucleases (ZFNs), transcription activator-like effector nucleases (TALENs), and the recent clustered regularly-interspaced short palindromic repeat (CRISPR) systems. These nucleases, in particular CRISPR systems, immensely facilitate the wide application of genome editing in various biological research fields.

The speaker explained the basic mechanism involved in genetic manipulations through programmable nucleases in the recognition of target genomic loci and binding of effector DNA-binding domain, double-strand breaks in target DNA by the restriction endonucleases, and the repair of DSBs through homology-directed recombination or non-homologous end joining. Moreover, the expression level of a target gene can be artificially regulated by a combination of genome editing tools such as catalytically inactivated Cas protein with transcription activator or repressor. This approach could be useful for metabolic engineering, although expression cassettes for inactivated Cas fused to a transcriptional activator or repressor should be stably transformed into the genome. Thus, the rapid development of genome editing technology has been expanding the scope of molecular breeding including metabolic engineering.

Dr. Mathivanan explained how the target metabolite can be fortified by the knockout and modification of target genes encoding enzymes involved in catabolic and biosynthesis pathways, respectively, via genome editing technology. Genome editing is also applied to genes encoding proteins other than enzymes, such as chaperones and transporters. Genome editing is used not only for site-directed mutagenesis such as the substitution of a single base in a target gene but also for random mutagenesis at a targeted region. The latter enables the creation of novel genetic alleles in a target gene.

Students were familiarised with the various applications of Genome editing which holds great promise in potential clinical applications such as gene therapy. Genome editing had been developed for a wide range of experimental systems ranging from plants to animals, often beyond clinical interest, and was becoming a standard experimental strategy in research labs. The recent generation of rat, zebrafish, maize and tobacco ZFN-mediated mutants and the improvements in TALEN-based approaches testify to the significance of the methods, and the list is expanding rapidly. Genome editing with engineered nucleases will likely contribute to many fields of life sciences from studying gene functions in plants and animals to gene therapy in humans. For instance, the field of synthetic biology which aims to engineer cells

and organisms to perform novel functions. The session concluded at 12:00 PM and the students' feedback was collected.

Learning Outcomes:

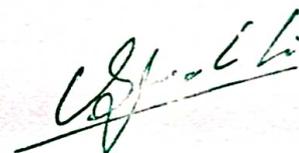

- Students were able to understand principles and mechanisms of RNAi and CRISPR Cas9 technologies and their potential applications in biomedical research, agriculture and healthcare industries.
- Enabled understanding of tools to design RNAi (siRNAs) and CRISPR (sgRNA) constructs to knockdown and edit genes of interests.
- Students will be able to design experiments to silence gene expression in various organisms and learn the ethical implications of genetic manipulation.

GUEST LECTURES

Speaker : Dr. Mathivanan Jothi
Designation : Scientist and Professor
Topics : "Genome Editing and its applications"
Nature of Audience : B.Sc & M.Sc Life Sciences
Date & Time : 03-11-22

Views of the Speaker :
Student interaction was very good.

Signature of the guest

Views of the beneficiaries

1) The session was interesting and it was useful to us, it gave us more knowledge about genes and genome editing. ~~and~~
2) The session ~~is~~ has given us a complete view about gene and genome editing, and its applications.
Remarks It was an interesting session

Department of Genetics is organizing a Guest Lecture for all the M.Sc. Students on 10th February 2023 at 11.15am. Hence I request the HODs and faculty members to permit the students to attend the lecture.

Speaker	Topic	Venue
Mrs. Dhanya Kamal Training Consultant – Levantar Talent Management Dubai & amp, Sahasraah Tech Solutions.	“Medical Coding Career Guidance”	SH-II

Learning Objectives:

1. To understand and translate medical information and patient diagnoses into medical code using various classification systems.
2. To assess patient records and clinical statements.
3. To ensure patients' information and data remains secure and confidential.

Learning Outcomes:

At the end of Guest talk, students will be able to

1. Use their extensive computer and medical coding knowledge, strong organizational abilities, demonstrating quality communication skills and patent service.
2. Improve their critical thinking and creativity on medical coding.
3. Maintain confidentiality with regard to patients' information and data.

AIM

To provide Career Guidance on Medical coding.

Objectives:

1. To understand and translate medical information and patient diagnoses into medical code using various classification system.
2. To assess patient records and clinical statement.
3. To ensure patients' information and data remains secure and confidential.

Outcomes:

At the end of Guest talk, students will be able to,

1. Use their extensive computer and medical coding knowledge, strong organizational abilities, demonstrating quality communication skills and patent service.
2. Improve their critical thinking and creativity on medical coding.
3. Maintain confidentiality with regard to patients' information and data.

Event Summary:

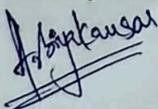

The Department of Genetics, Indian Academy Degree College Autonomous organized a seminar on "Medical coding & Career Guidance" for the benefit of M.Sc Life Sciences students. The session started at 11:15 AM with the introduction of the speaker. Mrs. Dhanya Kamal gave emphasis on career is an individual's journey through learning, work and other aspects of life. As healthcare providers are stretched to deal with the burgeoning problem at hand, there is a heightened demand for labour across other departments - boosting healthcare offshoring across the US and Europe. Earlier studies have already shown that India is the second-largest destination for healthcare outsourcing, owing to the strength of the Indian players to analyze Big Data, discover hidden patterns and unknown correlations.

She explained in-depth understanding of medical codes, payment policies, and government regulations, they take up medical records and code them for billing and insurance purposes. Medical coding has over the years become one of the most sought-after professions, with numerous job opportunities and exciting career growth.

Mrs. Dhanya explained Career is a very important thing in one's life. Whatever career path students choose to follow, it will impact their life greatly. You must consider a number of factors before deciding on your career. Each factor plays a significant role in your choice. Firstly, always assess yourself thoroughly. You must understand your area of interest to choose a career. The demand and supply gap for certified medical coders is approximately 40% and has increased significantly over the last year. The field of medical coding is growing at a much faster rate than average, with the employment of medical coders projected to grow 15 percent by 2024. The demand for skilled medical coders can only be seen to be increasing as they are key to the smooth functioning of the revenue cycle in the healthcare sector. Success in the industry depends on a combination of technical knowledge and soft skills of the medical coders such as the ability to acquire language, innovative thinking, analytical skills, perseverance, and continuous learning to build domain expertise through their coding journey.

At the end of session Students were familiarised with the top career options after their graduation and also about medical coders work. The session concluded at 12:30 AM and the students' feedback was collected.

GUEST LECTURES

Speaker : Mrs. Dhanya Kamal.

Designation : Training Consultant - Levantar Talent Management Dubai and amp,

Topics : "Medical coding Career Guidance"

Nature of Audience : P.G Students.

Date & Time : 10/02/2023 [11:15 am]

Views of the Speaker : First of all thank you for the opportunity and I am very happy with the management & students the way they treated us and responded to us. Really Thankful.

Signature of the guest

Dhanya Kamal

Views of the beneficiaries

Thank you so much for such informative session, this session made us know ^{more} about career in medical coding and about the process of medical coding. This made us plan about career in that field.

The programme was very informative, it has broadened our views and knowledge regarding career development, not only on medical coding, as it also helped in wide ranges of opportunities. Thank you for such informative session.

It was so valuable session for the life science student about medical coding and money management. Thank you for a session.

INDIAN ACADEMY DEGREE COLLEGE - AUTONOMOUS

Circular

31.03.23

Department of Genetics is organizing a Guest Lecture for M.Sc. Applied Genetics Students on 1st April 2023 at 11.15am. Hence I request all the Applied Genetics Students to attend the lecture.

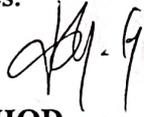

Speaker	Topic	Venue
Mr. Shubham Kumar Clinical Database Programmer Parexel international Bellandur.	"Overview of Clinical Research".	Genetics Lab.

Objectives:

1. To enable the students to acquire knowledge on Human diseases, precautions and treatments.
2. To understand therapeutic interventions and clinical trials of the diseases.
3. To acquire in-depth understanding of the mechanism of human diseases and development of new technologies to design drug.

Learning Outcomes:

1. Students will be able to understand Human diseases, precautions and treatments.
2. They will be able to understand Patient-oriented research, research conducted with human subjects.
3. They will be able to understand therapeutic interventions and clinical trials of the diseases.

Guest Lecture "Overview of Clinical Research"

Speaker:
Mr. Shubham Kumar
Clinical database programmer
Parexel international
Bellandur.

Date:01.04.2023
Time: 11:15am – 12.30pm

Faculty in-charge: Dr.Vanitha G Ramesh

Objectives:

1. To enable the student to acquire knowledge on human diseases, precautions and treatment.
2. To understand therapeutic interventions and clinical trials of the diseases.
3. To acquire in depth understanding of the mechanism of human diseases and development of new technologies to design drug.

Event Summary:

The lecture was conducted by Shubham Kumar, who is a Clinical Database Programmer II in PAREXEL International, with over 4 years of experience in the pharmaceutical industry. Mr. Kumar shared his expertise in the field of clinical database management, including protocol interpretation, database preparation,

and report programming. He also highlighted his therapeutic experience, which includes Oncology, Immunology, and Dermatology.

Key Takeaways:

1. Protocol Interpretation:

Mr. Kumar emphasized the importance of proper protocol interpretation, as it is the foundation for the successful execution of clinical trials. He explained that the interpretation of the protocol should be done in a way that is clear and unambiguous, to avoid any misinterpretations during the trial.

2. Database Preparation:

Mr. Kumar shared his experience in preparing databases for various CDMS tools such as Medidata Rave, Medrio, and Veeva. He highlighted the importance of adhering to the CDISC (Clinical Data Interchange Standards Consortium) standards, which are used for the exchange of clinical trial data.

3. Report Programming:

Mr. Kumar shared his expertise in report programming using business object tools. He explained that reports are an essential component of clinical trials, as they provide insights into the trial's progress and efficacy. He emphasized the need for accuracy and attention to detail in report programming, as even a small error could lead to incorrect conclusions.

4. Therapeutic Experience:

Mr. Kumar highlighted his therapeutic experience, which includes Oncology, Immunology, and Dermatology. He explained that the knowledge of the therapeutic area is essential for the successful execution of clinical trials, as it helps in the interpretation of the data and identification of any adverse events.

Conclusion:

Overall, Mr. Kumar's lecture was informative and insightful, providing valuable insights into clinical database management. His expertise in protocol interpretation, database preparation, and report programming, along with his therapeutic experience, make him a valuable asset to the pharmaceutical industry. The lecture was a great learning opportunity for students and professionals looking to expand their knowledge in this field.

Learning Outcomes:

1. Able to understand human diseases, precautions and treatments.
2. Students understood patient-oriented research conducted with human subjects.
3. Students acquire knowledge in therapeutic interventions and clinical trials of the diseases.

GUEST LECTURES

Speaker : Mr. Shubham Kumar
Designation : Clinical Database Programmer
Parxel International, Bellandur.
Topics : Overview on Clinical Research
Nature of Audience : M.Sc. Applied Genetics & VLSM B.Sc (AICTE/MB)
Date & Time : 01-04-23 (11.15 to 12.35)

Views of the Speaker : Interest of student is commendable,
Good and healthy discussion, it was pleasure to
present my knowledge with sincere and curious students.
Thank you, Genetics department (IADC) for providing this
Signature of the guest opportunity.

Views of the beneficiaries

- * The session conducted conveyed in depth about clinical research and enhanced our knowledge for the same.
- * It was informative regarding internship programs and how we could benefit out of it.

Remarks

INDIAN ACADEMY DEGREE COLLEGE - AUTONOMOUS

Circular

15.05.23

Department of Genetics is organizing Webinar for all B.Sc. and M.Sc. students on 31st May 2023 at 4.00pm to 5.00pm. Hence I request the HODs and faculty members to permit the Students to attend the talk with attendance.

Speaker	Topic	Venue
Dr.S.J Patil MD (Ped) DM (Medical Genetics) Consultant Clinical Genetics Narayana Hrudayalaya Hospitals/ Mazumdar – Shaw Medical Centre Bangalore – 5600099.	“Molecular insights of single gene disorder”	Online link: https://meet.google.com/cct-dthv-nsc

Learning Objectives:

1. To acquaint with how genes are switched on and off at specific times during human development.
2. To get familiarize the molecular basis for common polygenic conditions such as heart disease, diabetes and the major psychoses.
3. To get exposure to the new techniques which have broad application in diagnostic pathology in the future for various diseases.

Learning Outcomes:

At the end of the webinar students will be able to

1. Understand the regulations and expression of genes in specific tissues at particular developmental stage.
2. Build up a picture of how these molecular lesions are reflected in the clinical phenotypes of patients.
3. Acquire knowledge about the regulatory sequences of single gene disorders that we are in a position to replace defective genes.

DEPARTMENT OF GENETICS

Webinar on: "MOLECULAR INSIGHTS OF SINGLE GENE DISORDER"

SPEAKER: Dr.Siddaramappa.J.Patil
MD(Ped) DM (Medical Genetics)
Consultant clinical Genetics
Narayana Hrudayalaya Hospital

DATE: 31-05-2023
TIME: 4:00pm-5:00pm

FACULTY IN CHARGE: Prof. Cynthia Kasi

OBJECTIVES:

1. To acquaint yourself with how genes are switched on and off at specific times during human development.
2. To get familiarized with molecular basis for common polygenic conditions such as heart disease, diabetes and major psychoses.
3. To get exposure to the new techniques which have broad application in diagnostic pathology in the future for various diseases.

WEBINAR REPORT

The Department of Genetics, Indian Academy Degree College Autonomous organized a webinar series on "MOLECULAR INSIGHTS OF SINGLE GENE DISORDER" [Monday, 31st May 2023] for the benefit of M.Sc and B.Sc Life science students.

The session started at 4:00 pm with introduction of the speaker, Dr.Siddaramappa.J.Patil MD(Ped) DM (Medical Genetics) consultant clinical Genetics in Narayana Hrudayalaya Hospital.

He has over 10 years of experience, he is an expert in genetic disorders. His special interests are genetics of congenital heart diseases, Fetal medicine and neurogenetics. He has various national and international publications in peer reviewed journals. Dr. Patil also handles fatal autopsy for fetuses diagnosed with birth defects on suspected genetic Disorders.

He explained in-depth understanding of single gene disorder, its mechanism and symptom. By using pedigree analysis he has briefly explained many case studies of people who were affected by single gene mutation like Tay-Sachs Disease, Neurofibromatosis etc.

The case study included the patient's family history whether the parents are carriers or if a new mutation has occurred, and the condition of the patient while undergoing the treatment and the result of the treatment was also proved by giving the video glimpse of the patient and photos related to it.

The session was interactive and students have gained a lot of informative knowledge through this webinar. At and the end of session students were familiarized with the topic. The session concluded at 5.30 pm and the students feedback was collected.

We thank the principal Dr. N Thilaka, head of the genetics department Dr. Vanitha G Ramesh, Professor Dr. Shubhan Bhadrans and Assistant Professor Cynthia for organizing this webinar.

LEARNING OUTCOMES:

1. Understand the regulations and expression of genes in specific tissues at particular developmental stages.
2. Build up a picture of how these molecular lesions are reflected in the critical phenotypes of patients,
3. Acquire knowledge about the regulatory sequences of single gene disorder that we are in position to replace defective genes.

Department of Genetics in association with Stroma Biotechnologies Pvt.Ltd., is organizing a workshop for B.Sc and M.Sc Students on 14th July 2022 from 9.30am to 5.00pm.

Topic	Venue
“Karyotyping and its Clinical applications”	Genetics Laboratory Indian Academy Degree College - Autonomous Bengaluru.

Objectives:

1. To test and to examine chromosomes in a sample of cells
2. To take a close look at the chromosomes inside your cells to see if anything about them is unusual
3. To screen for and confirm chromosomal abnormalities

Learning Outcomes:

1. Able to analysis and visualization of an individual's chromosomes for the purpose of determining chromosome size and number.

2. Understood how to diagnose chromosomal disorders.
3. Acquired knowledge about karyotypes and their interpretation for clinical applications

HANDS-ON TRAINING WORKSHOP
On
“KARYOTYPING AND IT'S CLINICAL APPLICATIONS”

Date:14-07-2022

Venue: Genetics Laboratory

Karyotyping is a quite essential test in the diagnosis of genetic diseases/disorders related to numerical or structural changes of chromosomes. It is crucial to identify prenatal malformation syndromes and recurrence risk for future pregnancies as well as postnatal abnormalities through cytogenetic investigations. The cytogenetic analysis is predominantly carried out using prenatal samples (Chorionic villus sampling, Amniotic fluid and Cord blood), postnatal samples (Bone marrow, Peripheral blood) and Products of conception. Nowadays, the samples are cultured and processed for analysis in well- equipped laboratories with computerized karyotyping workstations and is currently being used for identification and detection of genetic diseases. The objective of this workshop is to provide hands on training and basic understanding of karyotypes and their interpretation for clinical applications.

SCHEDULE:

10:00am to 10:15am- Inauguration

10:30am to 11:45am – Lecture: Karyotyping and its clinical applications

- Culturing of cells
- Harvesting
- Slide Preparation and staining
- Microscopy
- Identification of chromosomes
- Preparation of Karyotype

Application of the Karyotyping techniques

- Hematological malignancies
- Fanconi anemia
- Couple Karyotyping
- Prenatal & postnatal Karyotyping.

Tea break: 11:45Am to 12:00Am

Demonstration of experiment by experts: 12:00am to 1:00pm

Lunch Break: 1:00pm to 1:30pm

Hands on practical by students: 1:30pm to 5:00pm

Vote of thanks

Report: Workshop on “Karyotyping and its clinical applications-Stroma Technologies”.

Place: Genetics Laboratory, Indian academy Degree College autonomous.

Date: 14.07.2022

Time: 9:30 am to 5:00pm

Resource Persons: Dr. Veeresh
Stroma biotechnologies pvt ltd

Faculty in-charge: Ms. Cynthia, Irene Kasi,

AIM:

To analysis and visualization of an individual's chromosomes by karyotyping

Objectives:

1. To test and examine chromosomes in a sample of cells.
2. To take a close look at the chromosome inside your cells to see if anything about them is unusual
3. To screen for and confirm chromosomal abnormalities

Learning Outcomes:

1. Able to analysis and visualization of an individual's chromosomes for the purpose of determining chromosome size and number.
2. Understood how to diagnose chromosomal disorders.
3. Acquired knowledge about karyotype and their interpretation for clinical applications.

Event Summary:

The Department of Genetics, Indian Academy Degree College Autonomous organized a Workshop on "Karyotyping and its clinical applications-Stroma Technologies" for the benefit of B.Sc and M.Sc Life Sciences students. The session started at 9:30 AM with the introduction of the speaker Students received a brief lecture on karyotyping and its clinical applications.

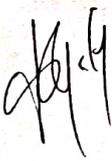

The workshop included the culturing the cells and harvesting of cells. Slide preparation and staining were done and were later observed by microscopy. The chromosomes were identified and preparation of karyotyping was done.

At the end Students were briefed on applications of karyotyping techniques:

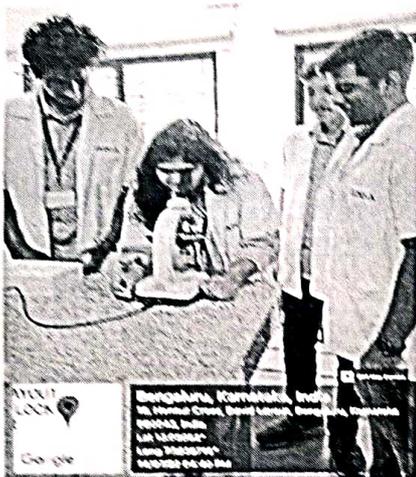

- Hematological malignancies,
- Fanconi Anemia,
- Couple karyotyping
- Prenatal and postnatal karyotyping

The techniques were demonstrated by expert and hands on practical were done by students.

CIRCULAR

Department of is organizing a Value added course on "DNA Fingerprinting Techniques" for B.Sc. Life Sciences and M.Sc. Applied Genetics Students on 13th, 14th and 15th of October 2022.

Topic	Venue
"DNA Fingerprinting Techniques"	Genetics Laboratory, Indian Academy Degree College - Autonomous Bengaluru.

Objectives:

1. To determine the probable identity of a person based on the nucleotide sequences of certain regions of human DNA that are unique to individuals.
2. To interpret DNA Fingerprints and to identify victims in crime and forensic fields.
3. To examine and track down blood relatives, paternity dispute and cures for diseases.

Learning Outcomes:

1. Able to analysis a pattern of stripes that can be matched against other samples.
2. Acquired knowledge to play a crucial role in criminal investigations as it can confirm or disprove a person's identity.
3. Adept to figure out an organism's evolutionary history and the relationships between different groupings of species.

Value added programme "DNA Fingerprinting Techniques".

Place: Genetics lab (IADCA)

Date: 13.10.22 -15.10.22

Time: 9:30 AM

AIM

To determine identity of person based on the nucleotide sequences of certain regions of humans DNA.

Objectives:

1. To determine the probable identity of person based on the nucleotide sequences of certain regions of humans DNA that are unique to individuals.
2. To interpret DNA Fingerprinting and to identify victims in crime and forensic fields.
3. To examine and track down blood relatives, paternity dispute and cures for diseases.

Outcomes:

1. Able to analysis a pattern of stripes that can be matched against other samples.
2. Acquired knowledge to play a crucial role in criminal investigations as it can confirm or disprove a person's identity.
3. Adept to figure out an organism's evolutionary history and the relationships between different groupings of species.

Event Summary:

The three days workshop was conducted is aimed towards B.Sc life sciences and M.Sc Applied Genetics students. It is scheduled to be held on 13th, 14th and 15th October 2022 from 9 AM to 5 PM. This will introduce students to key aspects of DNA fingerprinting and its applications in forensic science it will also provide individually focused hands-on training in cutting edge molecular biology tools and techniques that will be essential in their scientific careers. The workshop will stimulate human forensic testing, and participants will take DNA from a hypothetical crime scene and match it with the DNA of potential "suspects". Participants will learn DNA, perform PCR and gel electrophoresis to separate the resulting DNA fragments by size, thereby generating a DNA fingerprinting.

DEPARTMENT OF PHYSICS

A report on the Guest Lecture

“Neils Bohr and First Quantum Revolution”

Date: 07/11/2022

Time: 3:00 PM-4:00 PM

Event : Guest Lecture on “Neils Bohr and First Quantum Revolution”

Venue: First Floor Physics Lab, Indian Academy Degree College - Autonomous.

**Resource person : Dr. G. Venkatesh
Former Principal,
IADC,
Bangalore.**

Broad Aim

The Department of Physics – IADC-A has organized a guest lecture on **07th November 2022** for the I, III and V semester B.Sc. students of PMCs and EMCs and the faculty members to help them realize and appreciate the contribution of famous scientists to the field of science in general and physics in particular.

Objectives of the Guest Lecture

Quantum mechanics is the math that explains matter. It's the theory for describing the physics of the microworld, where atoms and molecules interact to generate the world of human experience. And it's at the heart of everything that made the century just past so dramatically unlike the century preceding it. From cell phones to supercomputers, DVDs to pdfs, quantum physics fueled the present-day electronics-based economy, transforming commerce, communication and entertainment.

- The Guest lecture gives a view of journey of Neils Bohr on quantum theory

- The Guest lecture is also set to inspire the students as they know the evolution of the First Quantum Revolution
- Provoke them to get curiosity in quantum mechanics and how it covers vital applications in our daily lives and in the future artificial intelligence world.

Outcomes of the Guest Lecture

The guest lecture delivered by Dr. G. Venkatesh was a source of inspiration to the young minds.

- The students will be able to look into the lives, hardships and achievements of the personality in Quantum Physics - Neil Henrick David Bohr.
- The students will also be able to understand how the photon interacts with atoms.
- They will know the new discoveries based on his understanding of quantum principles that evolve the modern society.

Report of the Guest Lecture

On 07th November 2022, the Department of Physics organized a guest lecture on “Neils Bohr - First Quantum Revolution” which was delivered by the resource person Dr. G. Venkatesh, who was the former Principal of Indian Academy Degree College - Autonomous, Bengaluru, India. Dr. G. Venkatesh shared his ripened experience and knowledge with the students and was a source of inspiration to the younger generation. He spoke about quantum physicist Neil Henrick David Bohr and his quantum theory.

Neil Bohr was a Danish physicist who made foundational contributions to understanding atomic structure and quantum theory, for which he received the Nobel Prize in Physics in 1922. Bohr was also a philosopher and a promoter of scientific research.

He explained the failure of the plenary model of the atom and proposed a new staircase model which very well explained the interaction between the energy and the matter. Using this new understanding the modern fields of electronics and photonics are expanding rapidly. Due to rapid expansion, we are living in a modern sophisticated era.

Feedback of the Guest Lecture

The lecture delivered by Dr. G. Venkatesh was well received by the students. The interaction with the resource person helped the students gain new insights into quantum theory. The students opined that the session was very informative and inspiring. The knowledge quotient and fluency of the resource person was excellently appreciated by the students.

The students conveyed their gratitude to the HOD and faculty of the Department of Physics for organizing the seminar and wished to have many more in the future.

Report on Guest Lecture

Date: 23-05-23

Venue: Seminar Hall- II

Fundamental Aspects of Nonlinear Optics

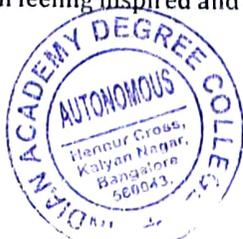

Dr. Shivaraj Maidur, an expert in the field of Nonlinear Optics, physicist from Kristu Jayanti College Autonomous, was invited to deliver a guest lecture on the “Fundamental Aspects of Nonlinear Optics” in celebration of the International Day of Light on 23-05-23. The lecture was attended by students from the domains of physical and chemical sciences were eager to learn from the esteemed scholar.

The event began with an *invocation* song by Kum. Saraswati, and the Dr. Abhiram J, Assistant Professor, Department of Physics introduced Dr. Shivaraj Maidur to the audience and mentioned his academic accomplishments and emphasized the significance of his contributions to the field of Nonlinear Optics.

Dr. Shivaraj Maidur addressing students and Faculty members on the “Fundamental Aspects on Nonlinear Optics”

Dr. Shivaraj Maidur's insightful lecture on Fundamental Aspects of Nonlinear Optics *inspired* and *motivated* the students who were captivated by his knowledge and expertise. He briefed on intricate workings of nonlinear optics and its real-world applications. He provided valuable insights into how nonlinear optics could be used to enhance various areas such as medical imaging, telecommunications, and material processing. His engaging presentation style and in-depth knowledge captivated the audience, leaving them feeling *inspired* and *motivated*.

Dr. Jeelan Bhasa and Dr. Abhiram J presenting a memento to Dr. Shivaraj Maidur for delivering an inspiring talk on "Fundamental Aspects on Nonlinear Optics"

During the event, Dr. Jeelan Bhasa, Associate Professor, Department of Chemistry had the esteemed privilege of presenting a beautiful memento to Dr. Shivaraj Maidur as a symbol of gratitude and admiration for his generous willingness to share his valuable knowledge and expertise. Dr. Vivek T, Assistant Professor, Department of Physics delivered a heartfelt vote of thanks, expressing gratitude for Dr. Maidur's informative and captivating lecture that left an indelible mark on all those present.

The guest lecture left a profound impact on all those who attended it, inspiring them to follow their passion and explore new horizons in their respective fields of study. The students left the lecture hall feeling more knowledgeable and empowered to pursue their dreams in physical and chemical sciences with renewed enthusiasm after listening to such an esteemed speaker on such an important day.

Guest Lecture Organizers:

1. Prof. Aruna K, Assistant Professor and In charge- Head of the Department [Physics and Electronics] *AMK*
2. Dr. Abhiram J, Assistant Professor Department of Physics *Abhiram J*
3. Dr. Vivek T, Assistant Professor Department of Physics *Vivek T*

DEPARTMENT OF COMPUTER SCIENCE

Event: "The Next Gen Tech Force-Preparation for the big leap"

Resource Person: Mr Jagadeesh Vice President Of Engineering, New Fold Digital.

Audience: III and V Sem BCA Students

Date: 23-06-2022

Time: 3:00 pm – 4:00 pm

Aim:

The main goal of this session is to discuss about new trend in information technology. Adaptation to Innovation, acknowledges the impact of emergent technologies on how we work, live and interact, furthermore underlining the need to focus on the ways we adapt our lives and our behaviours based on the innovations.

Content:

- Artificial intelligence (AI) and machine learning.
- The Internet of Things (IoT).
- Wearables and augmented humans.
- Big Data and augmented analytics.
- Cloud and edge computing.
- Digitally extended realities.
- Digital twins.
- Natural language processing.
- Voice interfaces and chatbots.
- Computer vision and facial recognition.

Profile:

Jagadeesh Maiya

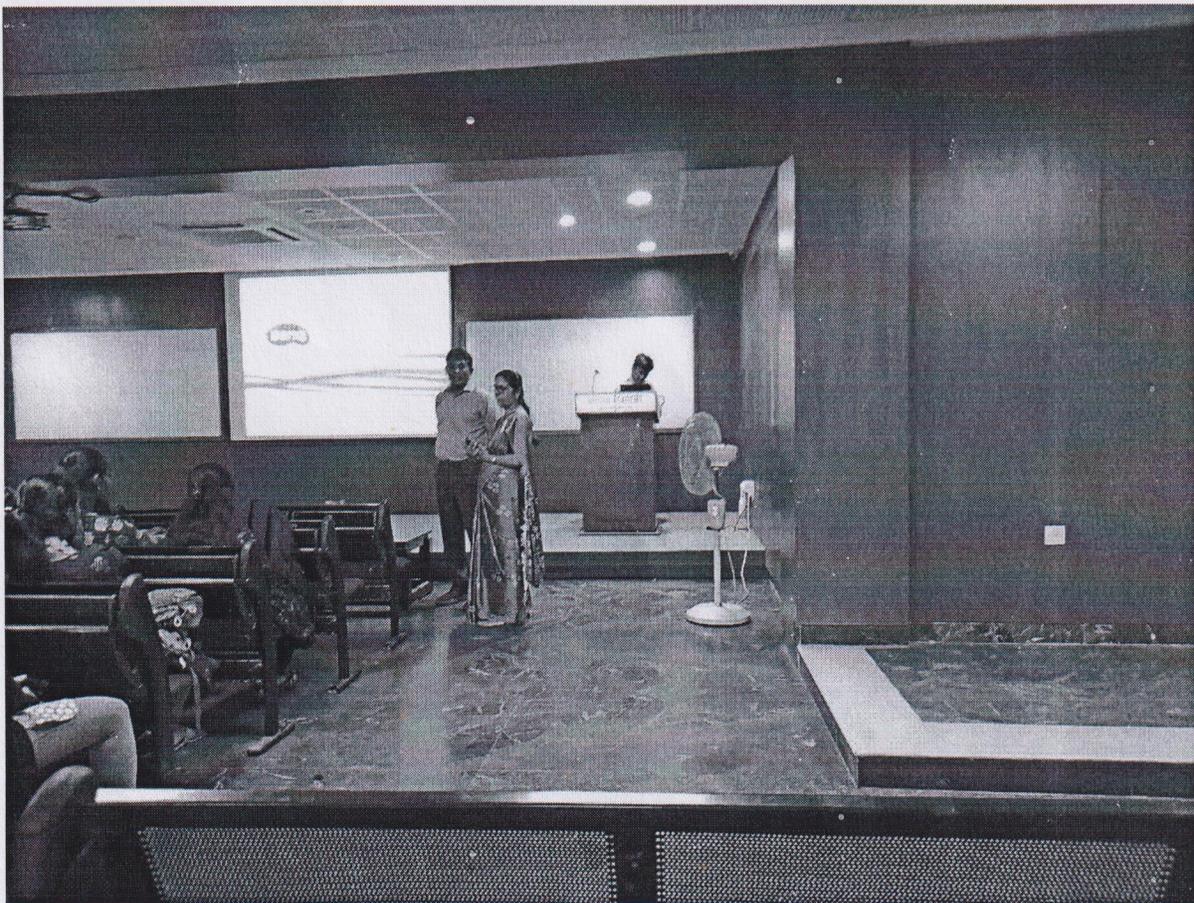

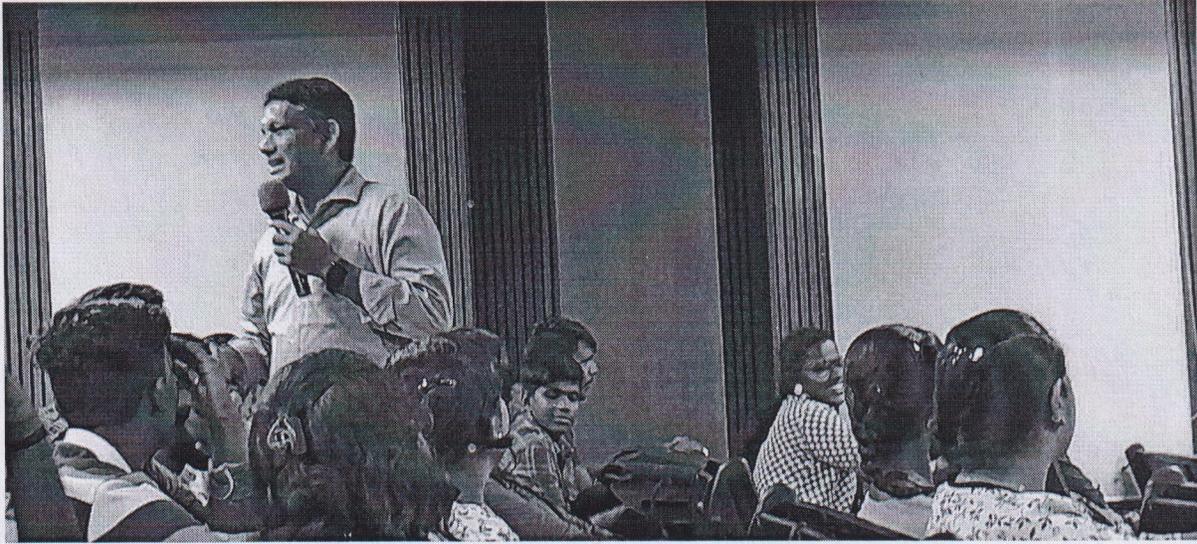

Vice President of Engineering
NewFold Digital
Bengaluru, Karnataka, India

About

- Accomplished Engineering Executive with over 20 years of rich Networking Software and Product development experience. 15+ years in Cisco.
- 14 years of technology & people management, includes 7 years of business executive leadership experience. Direct reporting of global teams.
- 10 years of solid architecture, design, development and maintenance of networking software, namely WAN access and broadband protocols, Network management, Identity and IP applications.
- Excellent skills and proven track record in leading large scale, multi-site initiatives for Cisco's Enterprise, Data Center and Service Provider products.
- Direct engineering ownership of Cisco's key Optical Products, in past Network Protocol Services, Next Gen OS Infrastructure and Embedded/Controller Manageability areas.
- Specializes in inspiring teams to achieve execution excellence, gains fed into building CoE around technology transitions and innovative initiatives.
- Excellent understanding of E2E customer use cases and crafting technology solutions that meet business needs.
- High Energy, Top rated people leader, Develops high performing team grounds up, drives teams with can-do-attitude to beat the stretch goal.

Technology Skills Summary:

- Embedded and RTOS, Cisco IOS flavors that run 80% of Cisco products (IOS-XE, IOS-XR and Nexus OS) , VxWorks, QNX, Linux, Windows
- Distributed systems, Virtualization, HA/ISSU, NFV and SDN Infra, Open source management, Programmability, Automation
- Performance and Scale, Serviceability, Debuggability, Zero Touch Provisioning systems, Subscriber Management and Security Services
- WAN and IP L2/L3 Technologies, Routing Protocols including Segment Routing, Optical networking, Control and Management plane, Legacy to open device management models
- C, C++, Java, JavaScript, Python, Automation

Conclusion:

The world has seen extreme changes in this century. Along with this, there have been rapid changes in the world economy and technology. The world has completely changed after industrialization. The need for change has increased today more than ever. This is due to the complex world we live in. It has increased the demand for certain skills and knowledge. It is necessary to get updated by ourself with new trends and innovations.

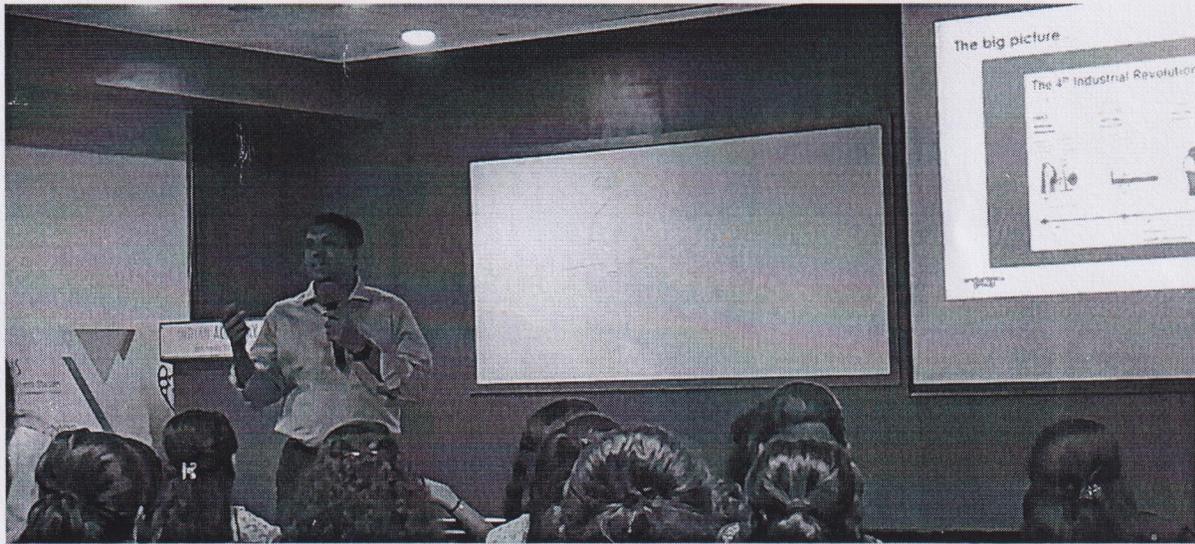

Learning Outcome:

- Students were able to understand the new trend in information technology.
- Students learnt about big data and different types of data.
- Students learnt about the structured and unstructured data.
- Students learnt about IOT and real-life applications.

Feedback:

- Students found this session very useful and knowledgeable.

CIRCULAR

24.4.2023

The Department of Business Administration is organizing Guest lecture on the topic, "Impact of international business in enabling Indian economy" on 26.4.2023 at Seminar Hall 2 from 10 - 12 pm. The resource person is Mr. Abin Daya, International Trade Expert and Regulatory Compliance Advisor. The students of IV are invited to be a part of this lecture to gain knowledge about regulatory compliance. Attendance is mandatory. For further information, contact Dr. Bharathi T.

Department of Business Administration

Guest Lecture

On

"Impact of international business in enabling Indian economy"

Date: 26th April 2023

Venue: SH-II

Audience: IV Semester BBA Students

Department of Business Administration had organized a guest lecture for IV semester BBA Students on "Impact of international business in enabling Indian economy" by inviting Mr. Abin Daya, International Trade Expert, and Regulatory Compliance Advisor.

The speaker started the session with the introduction to international business and its impact on the economy. He highlighted how countries grow rich by the trade activities by import and export channels. The trade environment was discussed, it was about the economic barriers, political hindrances, environmental factors. The Ukraine-Russia war and its impact on trade to other countries was pointed. The logistics plan, the procedure to transport was discussed at large.

A case study about the canopy failure during 1982 gold export and the ways things were managed then and now created interest among students to know more about the subject. The speaker also covered the trade regulations by FERA, FEMA.

REPORT ON ALUMNI MEET

INTRODUCTION:

The Alumni meet was conducted by The Department of Business Administration, where former students were invited to address present students. The meet was conducted with the purpose of familiarizing the students with the corporate environment and educating them on the skills required to grow in the industry, from the alumni's experiences.

Date: 15th April 2023 in Room No. 519.

Two Alumnis were invited to address the students:

Mr. Arvind Subramani

Mr. Paul Chembian

OBJECTIVES:

- To create a rapport between alumni and present students to keep the iadc spirit alive.
- To make the students aware of the corporate world and it's requirements even before they graduate.
- To help students build connections in the industry through alumnis.
- To honour the alumni for their success and growth in life and giving them a platform to share their experiences in the corporate world.

OUTCOME OF THE SESSION:

- The students were able to delve deeper into the true side of corporate world, by getting a detailed understanding.

- The alumni solved various queries and doubts of the students regarding the skills required, industry competition and survival and growth prospects.

SESSION 1:

The session started with Profile Reading of the first Guest Mr. Paul Chembian by Ms. Rimsha Bi Bi Zainab, 6th sem BBA.

PROFILE:

Mr. Paul Chembian is an enthusiastic learner with a strong commitment to his duties. His aim is to enhance his management career by exploring esteemed and highly professional organizations.

Mr. Chembian is currently working as an Onboarding Success Partner or Onboarding Specialist, where he is responsible for integrating new hires into the organization by providing them with an initial orientation process.

The morning session started around 10:30 a.m. and lasted till 11:00 a.m. which was led by Mr. Paul Chembian

The session started with Mr. Paul recalling his memories in college and how he once used to sit in the same place as us. He mentioned how happy he was to be back as a successful person. He then had a short conversation with the students on their college life and then went on to talk about his experience in the industry, all certificate courses and internships he had to do to land into a good job and also advised students on various skills required to sustain in corporates. He closed the session by wishing all the students success in their endeavours.

The guest speaker had educated students on a variety of topics, including the challenges faced by fresher's in corporates and practical world.

He also educated students on the importance of acquiring soft skills and technical skills.

SESSION 02:

The next session was led by **Mr. Arvind Subramani**

The second session started with a guest profile reading by Ms. Rimsha BiBi Zainab, 6th sem BBA.

PROFILE:

Mr. Arvind is a dedicated and hardworking individual who possesses high-energy and is a dedicated IT Help Desk Technician with over four years of experience.

Currently, Mr. Arvind is working as a Senior Representative Operations in the Thrive banking process at Concentrix Pvt. Ltd in Bangalore, where he provides high-quality service to achieve maximum customer satisfaction by resolving customer queries at first contact wherever possible.

Mr. Arvind continued the session after Mr. Paul, and he showed his gratitude to the teachers and the college for making him a better student. He began the session by asking students about their interests and goals and enquiring about the measures they are taking to fulfill these goals. He then advised students on things they should avoid and things they should focus on in building a career. He closed the session by advising students to start working on their goals right away.

He educated the students on the importance of communication and provided helpful tips on do's and don'ts of communication.

He had a meaningful interaction with students on their career goals and advised them on the ideal path to choose.

FELICITATION:

The guest speakers were then presented with a memento as a token of gratitude by Professor Kesavan and Professor Deepa, thanking them for taking time out of their busy schedules and addressing the students.

VOTE OF THANKS:

The session concluded with a vote of thanks from Ms. Rimsha BiBi Zainab, thanking the Guests for joining, the teachers for inviting the guests and organizing the talk and lastly the students for their patience and attentive listening.

CONCLUSION:

We thanked the speakers who gave us valuable inputs and the students were keenly interested to attend the sessions.

It was a privilege to have two distinguished guest lecturer, **Mr. Arvind Subramani** and **Mr. Paul Chembian** who have accomplished so much since their time here, and we certainly learnt a great deal from them today.

The Department of BBA organized Alumni talk on 12th November 2022, Saturday which was conducted in Seminar Hall 2. Our Alumni came with lot of enthusiasm and pride to their Alma matter, the ex-students were working at good organizations. They met the teacher and staff people and told about their accomplishments. College had welcomed them with warmth. The Alumni were invited to the dais to share their experiences and some of the thoughts expressed by them were:

- Felt very happy and joyful

- Appreciated that the programme was organized in a planned manner
- Felt happy while seeing the college again with vast development
- Shared their employment details
- Some of the Alumni expressed their willingness for helping the present students for placement

Address by Principal

Our Principal Dr Srinidhi K. Parthasarathigave the felicitation where in it was said that Alumni Talk is an opportunity to meet the colleagues and to see the college once again with heartfelt memories.

Vote of Thanks

Mrs S.Shalini Prof. & Head,BBA proposed the vote of thanks. She thanked the Alumni for taking the time to come for the Alumni Talk who have made it a very special and memorable one. She thanked the various organizers of the event (teaching, non-teaching staff and the enthusiastic student volunteers) whose hard work and dedication made the event possible. She also thanked the management of IADC-A for the support and guidance which has made Alumni Talk2022 a grand success.

Uday Birje **Co-Founder & Director, ThinkStreet Technologies.**

Uday Birje has over 30 years' experience in IT, Telecom & Network Industry. He began his career in HCL-Hewlett Packard & later moved to Digital Equipment Corporation (DEC), the World's 2nd largest Computer Company, in 1992 in Bengaluru. Uday launched & set up DEC's Networking Products division for India & South Asia. During his tenure at DEC, he architected & executed some of the largest Networks in India that included the VSNL's Internet Gateway Network, Konkan Railway Network etc. In 1998 he was appointed as the Managing Director for India & South Asia for Cabletron Systems the No:2 US based Networking major.

Uday Birje as a Promoter & Vice President was instrumental in setting up a US based startup **NetDevices Networks India Pvt Ltd** which was subsequently acquired by **Alcatel-Lucent Corporation** where he served as Director-India & Middle East Region.

In 2010 Uday joined **Hewlett Packard India** as Country Manager, Network Business with overall responsibility of the Division. In 2014 he setup **ThinkStreet Technologies** a startup to develop go-to-market strategies & startup ecosystems across the Globe.

Uday has been involved with many initiatives of **Government of Karnataka** as an advisor, including **New Age Incubation Network (NAIN)**, **Elevate-100** & **Unnati** since 2017, a first of its kind initiative setup to identify, fund & mentor **Top-100 Startups** in the State.

He is a mentor & jury of **India Innovation Challenge** an initiative of **Texas Instruments, Government of India & IIM Bangalore** since 2017. He has been involved with the **PAN IIT Global Conference** and the **PAN IIM World Management Conference** to evaluate "India's Top Startups". He was part of "Smart 50" initiative of **IIM Calcutta** & "**Bengalthon**" Startup Challenge initiatives of the Government of West Bengal.

Uday has been invited to be a Mentor for the World's Top University **Stanford University's - Seed Spark Startup Program for India & South Asia** since 2020.

Uday is a "**Mentor for Change**" under the **Atal Innovation Mission** of **NITIAayog, Government of India** & has been involved with various other Startup initiatives of Government & Private Institutions across India including **IIM Bangalore, IIM Lucknow, BMS College of Engineering, Sahyadri College of Engineering, Presidency College, New Horizon College of Engineering, Tumkur University** & many other top Institutions in India. Uday has been recently appointed as an advisor for the **Vivekananda Institute of Professional Studies, New Delhi**

An alumnus of **Harvard Business School, USA**, where he has completed his **Executive Education with specialization in Authentic Leadership & Corporate Governance**, Uday holds a **Bachelor's Degree in Electrical Engineering** from **Bangalore University**.

Uday is the **President of The Mysore Lancers Heritage Foundation**. **Mysore Lancers** was the "**Horse Regiment**" of the erstwhile Empire of the **Mysore Maharaja** which fought the **World War-I & II**. As a descendant of the **Mysore Lancers** Uday has been involved in many development activities to restore the History of the **Mysore Lancers** in collaboration with various stake holders like the **Royal Mysore Family, Indian Army, Government of Karnataka & Israel High Commission**. The **Mysore Lancers** regiment was merged with the **61st Cavalry of the Indian Army**.

On May 3rd, 2023, Mr. Uday Raghunath Birje, a prominent entrepreneur and innovator, gave a guest talk on entrepreneurship and innovation, with a focus on artificial intelligence and augmented reality. The talk was attended by a diverse audience comprising students, faculty, and professionals from various industries. Mr. Birje began his talk by sharing his personal journey as an entrepreneur and innovator. He talked about the challenges he faced and the lessons he learned while starting and scaling multiple businesses. He emphasized the importance of passion, persistence, and resilience in pursuing entrepreneurship and innovation. Next, Mr. Birje discussed the role of artificial intelligence (AI) and augmented reality (AR) in driving innovation. He explained how AI and AR technologies are transforming various industries, from healthcare to retail, and enabling new forms of entrepreneurship. He gave examples of companies such as Amazon and Apple, which have successfully leveraged AI and AR to create innovative products and services.

Throughout his talk, Mr. Birje emphasized the importance of creativity, innovation, and entrepreneurship in driving economic growth and societal progress. He encouraged the audience to think outside the box and to embrace new technologies and business models. He emphasized that entrepreneurship and innovation are not just for tech startups but can be applied to any industry or sector. Following the talk, there was a lively Q&A session, where the audience had the opportunity to ask Mr. Birje questions and share their own experiences and ideas. The discussion covered a wide range of topics, from the potential impact of AI and AR on employment to the role of government in supporting entrepreneurship and innovation.

Report on Guest Lecture on “CRM using Salesforce”

Organized by

Department of Computer Science

Title of the Event: Guest Lecture on “CRM using Salesforce”

Place: Indian Academy Degree College, Seminar Hall-2

Date: 29th April 2023

Time: 10:15 am - 11:15 am

Name of the Resource Person: Dr. Lakshmi Narayana B N, Software Manager, Comavia Systems Technologies

Broad Aim of the Event. The purpose of the lecture was to provide students with valuable insights into the field of customer relationship management (CRM) and how Salesforce can be utilized as a powerful tool in managing customer interactions and improving business processes.

Customer relationship management (CRM) is a technology for everyone — from sales, customer service, business development, recruiting, marketing, or any other line of business — a better way to manage the external interactions and relationships that drive success.

Salesforce is an intelligent, proactive, AI-powered platform that empowers employees with the information they need to make the best decisions for every customer. It's the backbone of the world's most customer-centered organizations and helps companies put the customer at the center of everything they do.

Objectives :

- a. To give an overview of cloud computing and SaaS service model
- b. Introduce students to the concept of CRM and its significance in modern business practices.
- c. Familiarize students with Salesforce data

- d. Inspire students to explore career opportunities in the field of CRM and Salesforce implementation.

Learning Outcomes :

- a) Understanding CRM Principles: Participants will gain a comprehensive understanding of customer relationship management (CRM) principles, including its importance in enhancing customer satisfaction, streamlining business processes, and driving revenue growth.
- b) Familiarity with Salesforce: Attendees will become familiar with the features, functionality, and various modules available within the Salesforce CRM platform. They will understand how Salesforce can be utilized as a powerful tool for managing customer interactions and improving business processes.
- c) Career Development Opportunities: By exploring CRM concepts and Salesforce implementation, participants will gain exposure to career opportunities in the field.

Brief details about the event: The Guest Lecture on “CRM using Salesforce” was organized by Dept. of Computer Science on 29/04/2023 at 10:15 am in Seminal Hall 2 of IADC-A. The lecture was given by Dr. Lakshmi Narayana B N, Software Manager, Comavia Systems Technologies. 4th and 6th BCA, 4th and 6th BSc students attended this guest lecture. Duration of this session was for 1 hr. Final year BCA student Mr. Indrajit Sarkar delivered a welcome address and he introduced the resource person.

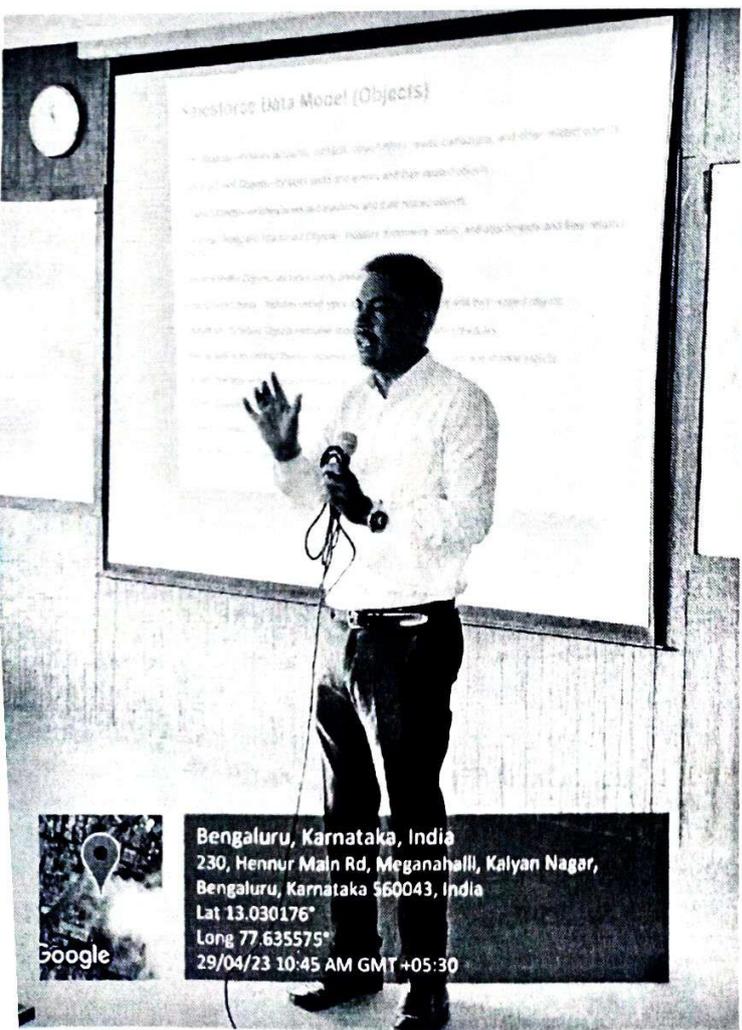

The guest speaker began by introducing the concept of customer relationship management (CRM) and its significance in today's business landscape. They explained the importance of CRM in improving customer satisfaction, streamlining business processes, and driving revenue growth. The speaker provided an overview of Salesforce as a leading CRM platform. They discussed its features, functionality, and various modules available within the Salesforce ecosystem.

We received a good response from the audience. At the end of the guest lecture, Mr. Indrajit Sarkar delivered the vote of thanks. He thanked the resource person, management, HoD, faculty members, participants and other officials for their active support in making the programme successful.

Report on Webinar on "NOSQL"

Organized by

Department of computer Science in association with IACPE

Title of the Event: Webinar on "NOSQL"

Place: Indian Academy Degree College, Seminar hall-2

Date: 4th April 2023

Time: 3pm to 4 pm

Name of the Resource Person: Mr. Dilip Kumar Lenka, Cloud Architect, Oracle

Broad Aim of the Event. NoSQL databases store data in documents rather than relational tables. Accordingly, we classify them as "not only SQL" and subdivide them by a variety of flexible data models. Types of NoSQL databases include pure document databases, key-value stores, wide-column databases, and graph databases. This webinar is intended for students and faculties to gain knowledge on NoSQL database and it as an alternative to relational databases. this webinar will show you how to use NOSQL and what is the industry requirements and challenges of NOSQL database.

Objectives :

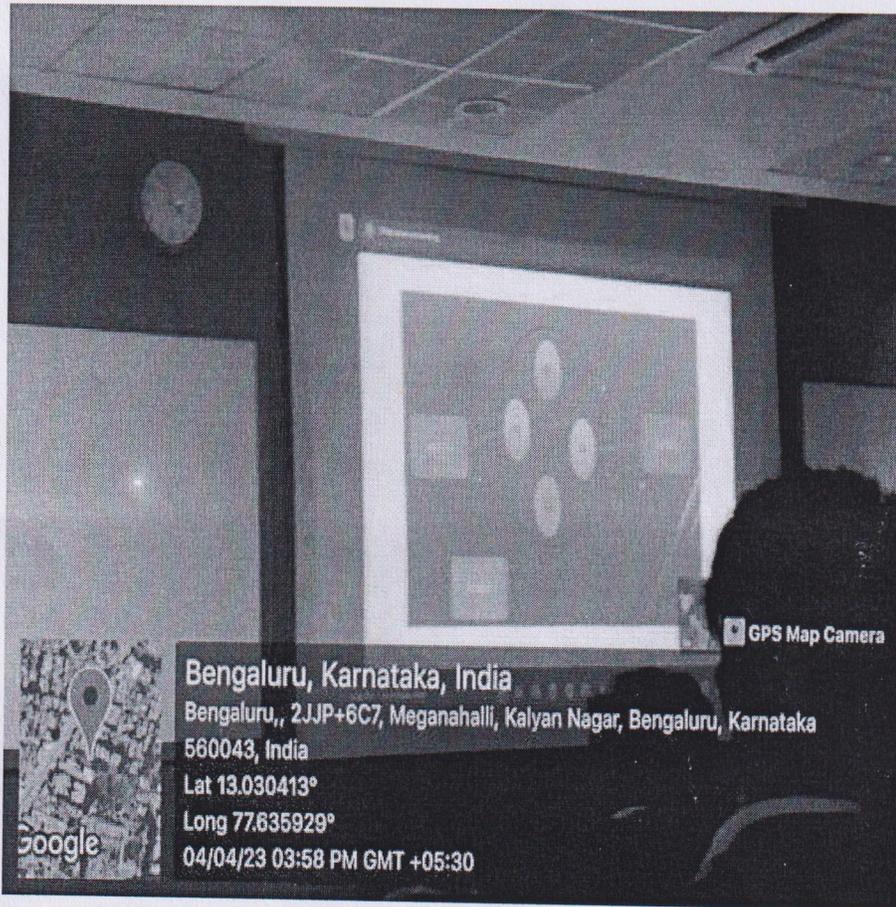

- a. To address specific technical requirements.
- b. Benefits of NoSQL.
- c. Data modeling and querying with NoSQL.
- d. Making students familiarity with NOSQL database .

Learning Outcomes :

- a) gaining practical skills and knowledge that can be applied to various industries and job positions.
- b) staying up-to-date with the latest trends and technologies in database management
- c) improving career prospect
- d) Learning Career development skills

Brief details about the event: This webinar on "NOSQL" organized by Dept. of Computer Science in association with IACPE. on 4/04/2023 at 3 pm, through the Zoom meet platform. The lecture in this webinar was given by Mr. Dilip Kumar Lenka, Cloud Architect, Oracle. 2nd, 4th and 6th BCA students attended this webinar. Duration of this session was for 1 hr 30 minutes .Final year BCA student Mr khaleel delivered welcome

address and he introduced the resource person . He explained about the importance of NOSQL. He specifically focused on the difference between SQL and NOSQL, advantages of NOSQL etc. We received good response from the audience. At the end of the webinar Mr. Khaleel delivered the vote of thanks. He thanked the resource person, Management, HoD, Faculty members, participants and other officials for their active support for making the programme to be successful.

Dillip Kumar Lenka

Dillip Kumar Lenka is Master's in computer science from IIT Kharagpur. He has more than 15 years of experience in various fields of IT like DataStructures and Algorithms ,Artificial Intelligence, Advanced Analytics, Machine Learning, Application performance development for Web based Applications, Application Design, Project Management, and Team Management. At present.

He has experience in all phases of Software Development Life Cycle (SDLC) which includes User Interaction, Business Analysis/Modelling, Design/Architect, Development, Integration, Planning and management version control Configuration, Code Management, Production/Customer Support, Maintenance, Enhancements and Quality Control, Testing, Implementation, Documentation, in Finance, HealthCare and Financial domain. Possess excellent understanding of Design Patterns and UML

He has extensive knowledge and experience in Artificial Intelligence/ Statistical techniques for building business solutions with high impact using techniques like Linear Regression, Clustering techniques, K-mean, PCA, K-NN, Logistic regression, Naïve Bayes, Decision tree , Random Forest, Boosting and Bagging Technique etc. using R/SAS/Python.

Worked on Web-serices and Micro-services in distributed environment Skilled in

Enterprise service Bus (ESB) and data security using cloud architecture.

Proficient in real time streaming applications and batch style large scale distributed

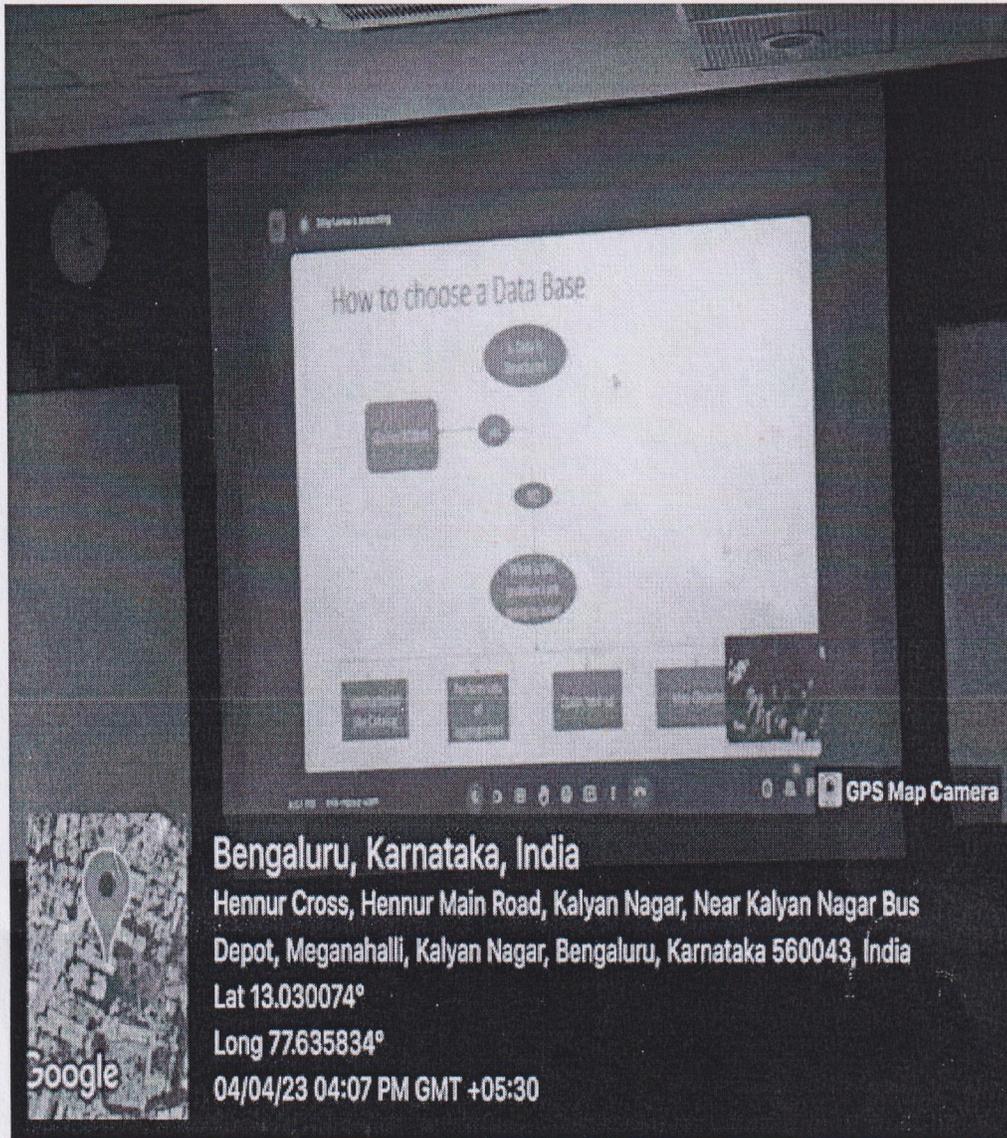

Computing applications using tools like Kafka, Spark Streaming, Spark SQL, No-Sql so on.

Responsible for leading a project team in delivering end-to-end enterprise solution to

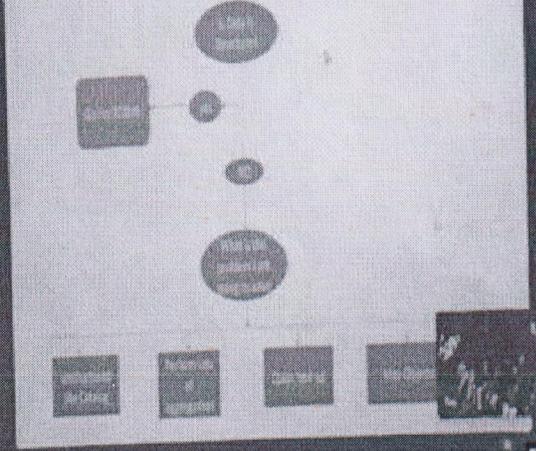

Customer. Currently working as the Cloud architect for Oracle cloud product

Using Oracle cloud development, Kafka, Microservices, redis, Grafana, Kibana

prometheus and Tenant based Database in a distributed environments.

How to choose a Data Base

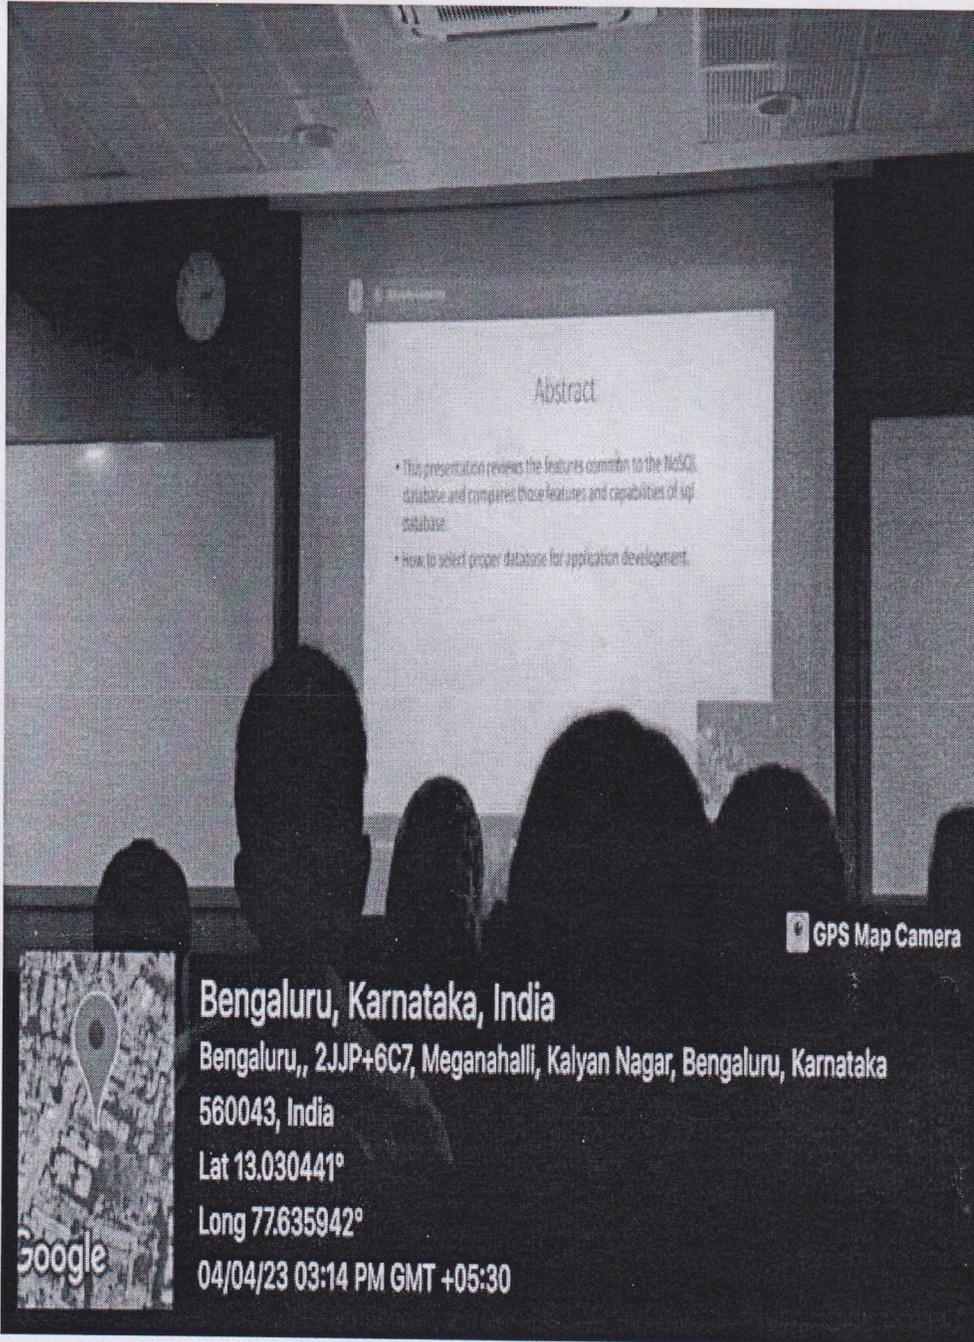

- Relational Database
- Object Oriented Database
- Graphical Database
- Text Database

Abstract

- This presentation reviews the features common to the MySQL database and compares those features and capabilities of sql database.
- How to select proper database for application development.

Report on Guest Lecture on "The Evolution of Cybersecurity Threats & Solutions"

Organized by

Department of Computer Science

Title of the Event: Guest Lecture on "The Evolution of Cybersecurity threats & solutions"

Place: Indian Academy Degree College, Seminar Hall - 2

Date: 25th April 2023

Time: 3 pm - 4 pm

Name of the Resource Person: Mr. Naseer Baig, Manager - Security IRM, Corporate Trainer, LockThreat Technologies Pvt Ltd

Broad aim of the event: The broad aim of the event is to explore the dynamic landscape of cybersecurity threats and solutions, tracing their evolution over time. By delving into the past, present, and potential future of cyber threats, the event sought to equip attendees with a deeper understanding of the challenges faced by individuals, businesses, and governments in the digital age. Additionally, it aimed to highlight innovative strategies and technologies that can effectively mitigate these threats and safeguard sensitive information in an increasingly interconnected world.

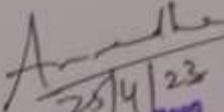

Objectives:

- a. Explore the historical progression of cybersecurity threats, tracing the evolution from early viruses to contemporary cyber-attacks.
- b. Identify current challenges like data breaches and ransomware, understanding the diverse threats facing individuals, organizations, and governments.
- c. Examine innovative solutions like AI and blockchain, analysing their effectiveness in mitigating risks and enhancing digital security.
- d. Foster collaboration by facilitating discussions and sharing best practices, promoting networking to collectively address cybersecurity challenges

Learning Outcomes:

- a. Participants will Gain a comprehensive understanding of the historical development of cybersecurity threats, enabling participants to recognize patterns and anticipate future risks.
- b. Develop the ability to assess and analyse current cybersecurity challenges faced by various stakeholders, leading to informed decision-making and risk management strategies.
- c. Acquire knowledge of cutting-edge cybersecurity solutions and technologies, empowering attendees to implement proactive measures to safeguard digital assets and infrastructure.
- d. Cultivate collaborative skills through interactive discussions and knowledge sharing, fostering a community-driven approach to addressing cybersecurity threats effectively.

Brief details about the event: Guest Lecture on "The Evolution of Cybersecurity Threats & Solutions" was organized by Department of Computer Science on 25/4/2023 at 3 pm in Seminar Hall 2 of IADC-A. Mr. Naseer Baig, Manager-Security & IRM and Corporate Trainer at Lockthreat Technologies, delivered the lecture. The audience consisted of all BCA students. The session commenced with a welcome address by Ms. Roohiya, a IV semester BCA student, who introduced the guest speaker. Mr. Baig provided a comprehensive overview of the historical progression of cybersecurity threats and solutions, highlighting the emerging challenges faced in the digital era. He discussed innovative strategies and technologies to mitigate risks and safeguard sensitive information. The lecture lasted for 1 hour and received positive feedback from the audience. Ms. Roohiya concluded the event by expressing gratitude to Mr. Baig, the management, HoD, faculty members, participants, and other officials for their support in making the program successful.

EDUCATION

- University of madras (Bachelor in Business Administration, 2005)
- Arcsight Certified Security Analyst, 2012
- RSA Archer Certified Administrator 2014
- Lumension Certified Professional 2011

SKILLS

- Cybersecurity & Privacy Compliance
- Integrated Risk Management (IRM) Architecture
- Security Systems architecture assessments
- Cybersecurity standards & best practices

Emirsec Technologies

JANUARY 2014 - PRESENT

- Help to design, implement, and maintain the organization's cyber-security plan.
- Develop and direct implementation of security standards and best practices for the organization.
- IRM Deployment & Customization needs identification
- Recommend security enhancements to Security Management.
- Manage Client And vendors IRM & GRC projects.

Paramount computer systems

MARCH 2011 - DECEMBER 2013

- Administrating and managing SIEM & Endpoint security tools. (Arcsight, Archer, McAfee & Websense)
- Conducting Vulnerability Scanning, Maintaining the Organizations Servers ,DB and all other Asset lists using nCircle / Rapid7
- Deployed Access Controls & SSO.

SmartGlobal Pvt Ltd

FEB 2007 -FEB 2011

- Spearheaded initiatives to restructure software product development processes to increase productivity
- Managing teams & projects for the quality product delivery.
- Always been inclined towards learning new things & technologies.

REPORT

Guest lecture on Ethical Hacking

Date: 20/12/2022

Time: 3.00 PM-4.00PM

Venue: Seminar Hall 2

Resource Person: Mr Adrin P.F

Cyber Security Analyst& trainer

Texial Cyber Security

Aim:

To comprehend importance of Ethical Hacking and its role in achieving corporate world

Objectives:

- To instill in the young minds the concept of Ethical hacking
- To gain awareness on dealing with private data in public platforms

Summary:

The workshop on “Ethical Hacking” was conducted on 20/12/2022 by Mr Adrin P.F for final year BCA and BSc students of IADCA.

Mr Adrin is a Cyber Security Analyst& trainer in Texial Cyber Security more than 4 years of experience in training people in this field.

Ethical hacking is an authorized practice of detecting vulnerabilities in an application, system, or organization’s infrastructure and bypassing system

security to identify potential data breaches and threats in a network.

Ethical hackers aim to investigate the system or network for weak points that malicious hackers can exploit or destroy. They collect and analyze the information to figure out ways to strengthen the security of the system/network/applications.

He practically engaged students and demonstrated various ways of ethically hacking information. Students enjoyed and participated in the practical activities. It was a informative and useful for students. It was an experiential learning activity.

Learning Outcome:

- Students learnt about various ways of information getting hacking by hackers
- Students got an awareness on importance of protecting the information
- Students learnt how to protect their information from public

CAREER HISTORY

IBM (Kyndryl) India Pvt Ltd

Technical Engineer(Network), 2019(August)-2022(April)

- Ensured any changes to network or its systems were carefully and properly documented for audit purposes.
- Contacted manufacturers and vendors for warranty repairs and replacements.
- Managed and documented network systems and operational procedures.
- Carried out timely emergency software and system repairs, limiting business operations disruption.
- Assisted management in creating training programmes in order to improve talent within workforce and increase efficiency.
- Performed regular trend analysis, eliminating repeat issues with ticketing response times.
- Demonstrated outstanding technical troubleshooting skills, identifying problems promptly and precisely.
- Communicated technical information to non-technical audiences through easy-to-follow presentations, explanations or demonstrations.
- Attended emergency call-outs at short notice to provide tech support or fix software, systems or device malfunctions.
- Provided remote IT services support to international teams, responding quickly to incidents with clear resolutions.

ADRIN.P.F

Cyber Security Analyst

PERSONAL SUMMARY

Knowledgeable IT team member with background setting up, maintaining and repairing user stations. Equipped to work independently on diverse support projects and keep impeccable records.

Offers expert troubleshooting, critical thinking and problem-solving abilities.

Trustworthy Support Engineer with 2+ years of practical experience and dedicated work ethic. Self-motivated to consistently provide first-class results in line with stringent targets and deadlines.

PROFESSIONAL SKILLS

- Case management
- Computer backup management
- Software fault diagnosing
- Application installation
- Mobile device troubleshooting
- Software update installation
- Troubleshooting proficiency
- Data restoring and recovery strategies
- Social media marketing
- Communication skills

CONTACT INFORMATION:

Location: #138/A Agra main road, opp North woods, 1st main 1st cross, vaddarapalya, Hennur bande, horamavu post, Bangalore - 560043

Freelancing

Trainer, 2021-Present

- Created successful training courses based on evaluation of student needs.
- Provided additional materials to enhance training.

Texial Cyber Security

Cyber security Analyst and Technical Trainer, (2022 June - Present)

EDUCATIONAL HISTORY

He has attended many FDP, webinars, Forums and workshops. He

A REPORT ON FORENSIC ACCOUNTING

Date: 5th May 2023

Time: 11:15 to 12:15 pm

Speaker: CMA Dr A.S. Gurudath

Venue: Seminar Hall II

Target Audience: VI sem BBA and B.Com Students

REPORT :-

The department of BBA organised a Guest Lecture on Forensic Accounting for the BBA and B. Com final year students. The guest CMA Dr A.S. Gurudath was exuberant to take the session. Director Academics Dr Suryanarayana and HOD Dr Bharati welcomed the guest with a sapling. The speaker then started the session with the introduction and definition of Forensic Accounting.

Forensic accounting utilizes accounting, auditing, and investigative skills to examine the finances of an individual or business. Forensic accountants are CMAs that look for evidence of crimes and commonly work for insurance companies, financial institutions, and law enforcement agencies.

Forensic accountants analyse financial records and accounts that may be used as legal evidence and often testify in court cases as expert witnesses. They may work on cases such as *fraud and embezzlement* and explain the nature of a financial crime in court.

KEY TAKEAWAYS

- Forensic accounting is a combination of accounting and investigative techniques used to discover financial crimes.
- Forensic accountants explain the nature of a financial crime to the courts.
- Forensic accountants trace funds, identify assets and conduct asset recovery, and perform due diligence reviews.
- Forensic accounting is used by the insurance industry to establish damages from claims.

CAREER AS A FORENSIC ACCOUNTANT

The speaker told the students about the career opportunity and scope of the subject which everyone felt interested. Forensic accountants analyse, interpret, and summarize complex financial data. They compile financial evidence, develop computer applications to manage the information collected, and communicate their findings in the form of reports or presentations.

The accountant's tasks include tracing funds, asset identification, asset recovery, and due diligence reviews. Forensic accountants may also train in alternative dispute resolution (ADR) due to their high level of involvement in legal issues and familiarity with the judicial system.

Litigation Support

Forensic accounting is utilized in litigation when quantification of damages is needed. Parties involved in legal disputes use the findings of a forensic accountant to resolve disputes via settlements or court decisions, such as compensation or benefit disputes. The forensic accountant may be utilized as an expert witness if the dispute escalates to a court decision.

Criminal Investigation

Forensic accountants analyse whether a crime occurred and assess the likelihood of criminal intent. Such crimes may include employee theft, securities fraud, falsification of financial statement information, identity theft, or insurance fraud.

ANALYTICAL TECHNIQUES

Forensic accountants utilize an understanding of economic theories, business information, financial reporting systems, accounting and auditing standards and procedures, data management & electronic discovery, data analysis techniques for fraud detection, evidence gathering and investigative techniques, and litigation processes and procedures to perform their work.

When detecting fraud in public organizations accountants will look in areas such as billing, corruption, cash and non-cash asset misappropriation, refunds, and issues in the payroll department. To detect fraud, companies may undergo management reviews, audits (both internally and externally) and inspection of documents. Forensic accountants will often try to prevent fraud before it happens but searching for errors and in-precise operations as well as poorly documents transactions.

The process begins with the forensic accountant gathering as much information as possible from clients, suppliers, stakeholders, and anyone else involved in the company. Next, they will analyse financial statements in order to try and find errors or mistakes in the reporting of those financial statements as well as they will analyse any background information provided. The next step involves interviewing employees in order to try and find where the fraud may be occurring. Investigators will look at company values, performance reviews, management styles and the overall structure of the company. After this is complete the forensic accountant will try to draw conclusions from their findings.

EXAMPLES OF SCAMS

The speaker also gave various examples to make the students understand about the scams and frauds such as Commonwealth Games Scam, Telgi Scam, Satyam Scam, Fodder Scam, Hawala Scam and explained how forensic auditing and accounting can help in solving such cases.

CONCLUSION

The speaker made the session very interesting by giving different examples and made all of us to think about the frauds and how they are sorted with this subject of accounting. The students were overwhelmed and flocked the speaker after the session. The session summed up at 12:15 pm but the discussion with the speaker went upto 12:45. Later our entire BBA faculties thanked him for his precious time and effort.

Guest Lecture Report

Title of the Event: "The use of Digital Library"

Place: Block II S4

Date: 17.10.22

Time: 11:15 pm -12:10 pm

Name of the Resource Person: Mrs. Saritha.M
Librarian,
Library and information Centre,
Indian Academy Degree College Autonomous

Objectives:

1. To create awareness about available resource procedures and service.
2. To foster reading habits
3. To inculcate information gathering abilities

Outcomes:

1. To enable students to effectively utilize the facilities and resources made available by the library.
2. Students reading and leaning culture are being revitalized.
3. Providing students the option of learning while they are at leisure.

Brief details about the event:

The College Library is a gateway to a world of information. The staff and students have unlimited access to a wealth of Information found in resources like books, magazines, Journals, statistics, encyclopedia, annual reports and the Internet. In addition, the library offers spacious seating arrangements and a calm ambience for learning. A robust and dynamic library is vital to the academic life of the University. The library provides an environment for discovery, reflection, and expansion of knowledge. In addition, the library often serves as a physical core to campus. The academic community and its needs determine the library's utilization of space and allocation of resources. The strength of any university library is gained through engagement with the academic community.

SARITHA M NAIR

BA-02/2022-23

16th December 2022

The Department of Humanities (Psychology) is organizing a Guest Lecture for faculty members and the students of BA on 19th December, 2022 from 11.15 am to 12:10 pm.

All the students and faculty are invited for the Guest Lecture in Block II S4

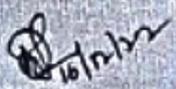

Resource Person	Title
Mr Akshay.A Assistant Professor IASMS -IA School of Management Studies	"Financial Literacy for Non-Financial Background"

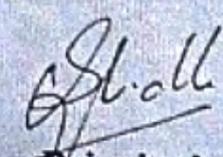

Objectives:

1. To understand the basics of financial literacy.
2. To understand the concepts and strategies used in managing finance.

Outcomes:

1. Students will have the ability to make better financial decisions.
2. Students will be able to be financially independent and lead a stress-free life.

HUMANITIES CLUB

Title of the Event: "FINANCIAL LITERACY"

Venue: S4

12:15pm

Date: 19-12-2022

Time: 11:15am-

Name of the Resource Person: Professor Akshay
Academician, investor and trader with 13 years of experience in investing and 7 years in teaching.

Broad Aim of the Event: Bring awareness about financial literacy

Objectives:

1. To educate students about some basic misconception related to the financial world
2. To cultivate researching skills

Outcomes:

1. Built interest into cultivating new skills and being financially aware.
2. Gathering knowledge required to actively be a successful part of the economic world.
3. Recognising importance of credible sources of knowledge.

Brief details about the event: The event was conducted by professor Akshay. The speaker explained about basic terms in the financial world such as "fiscal year" and "inflation". He conveyed the importance of several underestimated statistics such as the presence of health insurance and the lack of rationality in life insurance plans. He debunked the value given to amateur investing by expressing the lack of proper knowledge on social media platforms, while highlighting the right platforms to learn from as well the proper investment of time and effort. He deliberately mentioned that planning is the crucial element in financial status records. The speaker's lecture was easy to understand by all and he also cleared doubts by the inquisitive audience.

The speaker emphasized the importance of having a budget and tracking expenses. He explained that budgeting helps individuals to prioritize their spending and avoid unnecessary expenses. He also highlighted the benefits of saving regularly, including building an emergency fund and having funds for long-term financial goals.

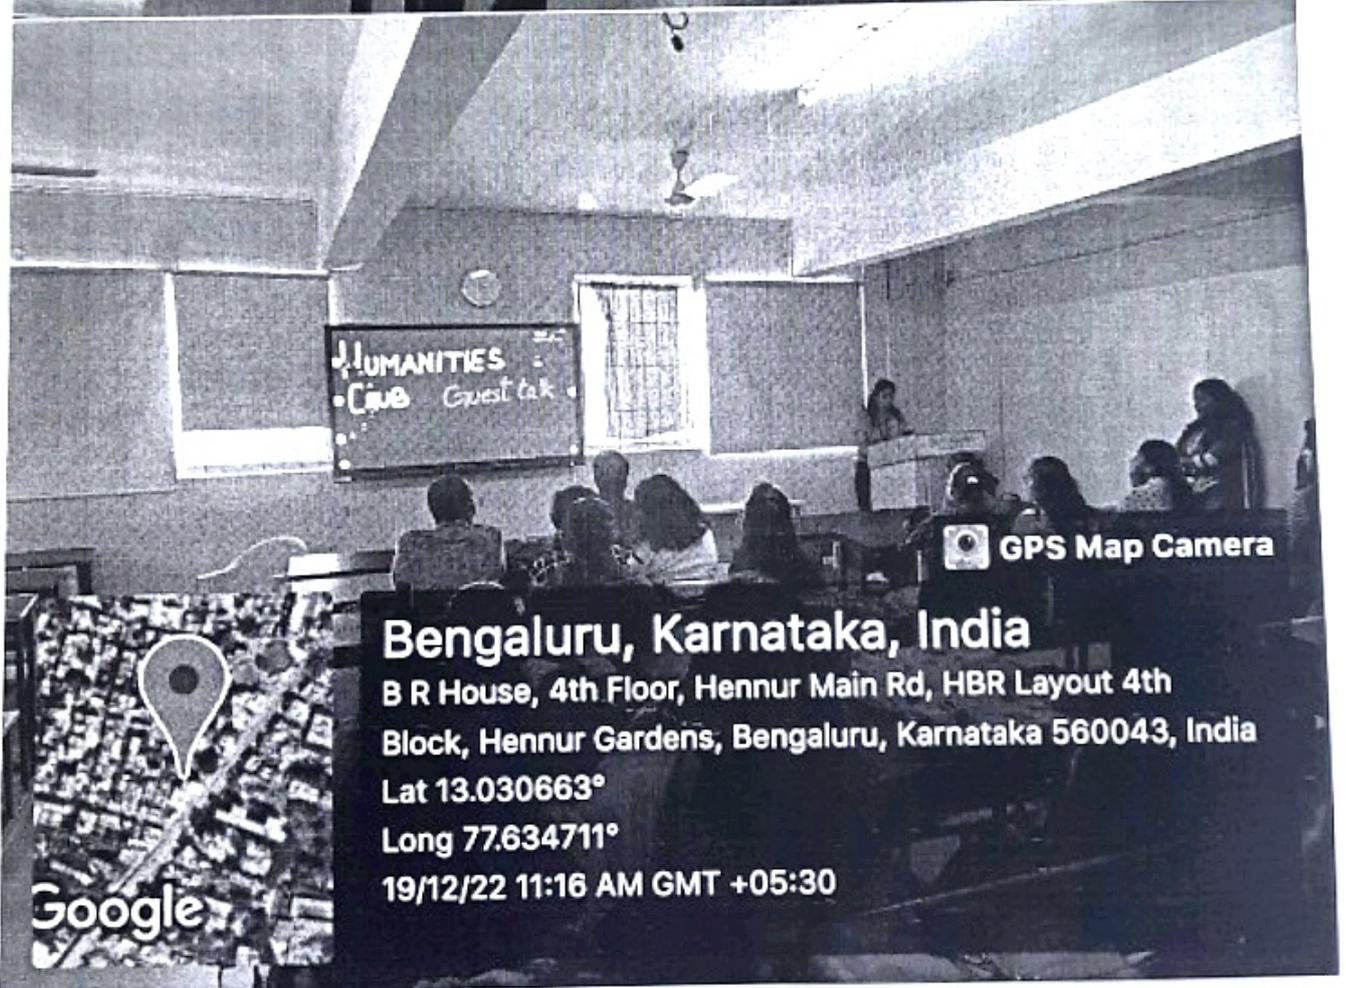

He also discussed the importance of investing and explained the various investment options available to individuals, including stocks, bonds, and mutual funds. He provided practical tips on how to evaluate investment options and how to diversify investments to minimize risk.

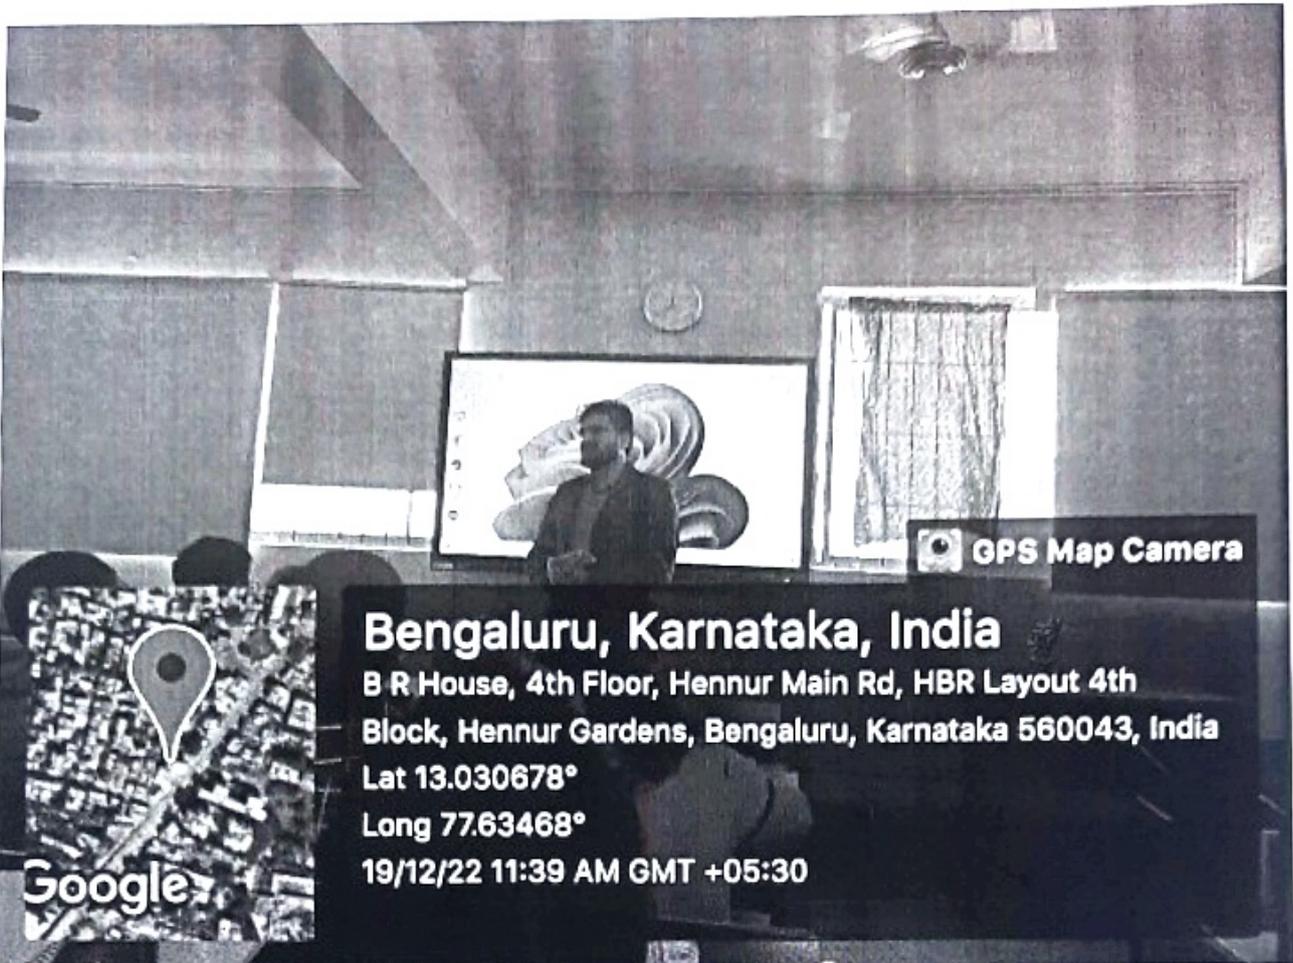

In addition, he talked about debt management and the impact of high-interest debt on personal finances. He advised participants on the importance of paying off high-interest debt as quickly as possible and recommended strategies for managing debt effectively.

The guest talk on financial literacy was a valuable learning experience for participants. The speaker provided practical advice and guidance on financial planning and management, which will help participants to make informed decisions about their finances. The talk emphasized the importance of budgeting, saving, investing, and debt management, and provided participants

An email or Circular (BA/HC- /2022-23) was sent to staff members with regard to the event.

GUEST LECTURE

Event Report : 20/12/2022

Resource Person: Mr. Akshay A, Assistant Professor-IASMS

Topic: Financial Literacy for Non-Financial Background Students

Place and time: BA Block-S4, 11:15-12:10

Aim: Help students make appropriate financial decisions.

Objectives:

- To understand the basics of financial literacy.
- To understand the concepts and strategies used in managing finance.

Outcomes:

- Students will have the ability to make better financial decisions.
- Students will be able to be financially independent and lead a stress-free life.

Description:

The Department of Psychology had organized a Guest Lecture on Financial Literacy for Non-Financial Background students in BA Block. The talk began with sir asking the students about their opinions about the financial managements and how are they managing their finances. Later, sir explained the students about investments and financial management. It was an interactive session were students got an opportunity to express their opinions on the topics discussed.

Report on Guest Lecture

Topic: "Indian Mathematicians-A View"

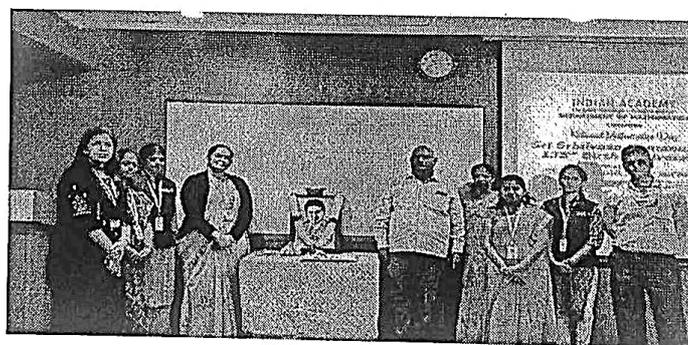

Resource Person: Prof. Lakshmikanthamma P K

Date: 26/12/ 2022

Aim: To know more about Indian Mathematicians and their contributions.

Objectives: To gain knowledge about Indian Mathematicians.

Department of Mathematics, Indian Academy Degree College Autonomous, Bangalore Organised a guest lecture on 26th December 2022 in remembrance of Srinivasa Ramanujan's 135th birth anniversary. A Guest Lecture was conducted to the BSc (Physical Science) I, II & III year and MSc (Life Science) II year students by the department of Mathematics. The programme began with an introductory song performed by Saraswathi and Monisha of the B.Sc II year. Lavanya, a third-year BSc student, welcomed the vice principal and the audience. The vice principal, prof. Shalini, then addressed the audience and encouraged them. Ms. Lakshmikanthamma gave her presentation on Srinivasa Ramanujan's life. She concentrated on Srinivasa Ramanujan's mathematical contributions to the realm of mathematics. These details motivated everyone to accomplish these seemingly unattainable. Finally the session was concluded with a gratitude speech by Umme Salma of III year BSc.

Prof. Lakshmikanthamma P K, Head, Department of Mathematics, IADCA delivered a FIRST talk on "Indian Mathematicians-A View" in seminar hall II between 10:15am and 11:15am for all B.Sc., (PMCs, ECs, PCs, MCs) and M.Sc., (Chemistry) students. The talk was fruitful and meaningful on this occasion.

Students learned about the Indian Mathematicians which they didn't hear before.

She talked about Ramanujan and also classical, mogul period mathematicians.

This period saw mathematicians such as Aryabhata, Varahamihira, Brahmagupta, Bhaskara I, Mahavira, Bhaskara II, Madhava of Sangamagrama and Nilakantha Somayaji.

Ramanujan (1887 – 1920): During his short life, Ramanujan independently compiled nearly 3,900 results (mostly identities and equations) such as the Ramanujan prime, the Ramanujan theta function, partition formulae and mock theta functions, have opened entire new areas of work and inspired a vast amount of further research.

Aryabhata: Aryabhata (476–550) wrote the Aryabhatiya. He described the important fundamental principles of mathematics in 332 shlokas. Aryabhata's contributions include Trigonometry.

Varahamihira: Varahamihira (505–587) produced the Pancha Siddhanta (The Five Astronomical Canons). He made important contributions to trigonometry, including sine and cosine tables to 4 decimal places of accuracy.

Brahmagupta: Brahmagupta(c. 598 CE- 668 CE) is the author of two early works on mathematics and astronomy: the Brāhmasphuṭasiddhānta, a theoretical treatise, and the Khaṇḍakhādyaka, a more practical text. Brahmagupta was the first to give rules to compute with zero.

Bhaskara I: Bhaskara I (c. 600–680) expanded the work of Aryabhata in his books titled Mahabhaskariya, Aryabhatiya-bhashya and Laghu-bhaskariya. He produced Solutions of indeterminate equations, a rational approximation of the sine function and a formula for calculating the sine of an acute angle without the use of a table, correct to two decimal places.

Mahavira: Mahavira (c.850, Karnataka, India), Indian mathematician who made significant contributions to the development of algebra.

Bhaskara II: Bhaskara (c. 1114–1185) also known as Bhaskaracharya and his works represent a significant contribution to mathematical and astronomical knowledge in the 12th century. He has been called the greatest mathematician of medieval India. His main work Siddhanta-Siromani, is divided into four parts called Lilavati, Bijaganita, Grahaganita and Goladhyaya. These four sections deal with arithmetic, algebra, mathematics of the planets, and spheres respectively.

Nilakantha Somayaji: Kelallur Nilakantha Somayaji (1444 – 1544), also referred to as Kelallur Comatiri, was a major mathematician and astronomer of the Kerala school of astronomy and mathematics. One of his most influential works was the comprehensive astronomical treatise Tantrasamgraha completed in 1501. He had also composed an elaborate commentary on Aryabhatiya called the Aryabhatiya Bhasya.

This lecture was helped the students to gain some knowledge about our Indian Mathematician and their contributions. Lecture was very useful and also students learned many things especially about Ramanujan and also about classical, mogul period mathematicians.

Outcome: Students are motivated and gained knowledge about Indian Mathematician.

❖ TIME AND VENUE

Seminar Hall 2 at 11.00 a.m-12.30 pm

❖ BENEFICIARIES

The guest talk was arranged for the sixth semester B.Com & M.Com students.

❖ BRIEF NOTE ON THE GUEST TALK

The Department of Commerce, organized a guest lecture program for sixth semester B.Com & M.Com students. On the topic "TRENDS IN MUTUAL FUNDS AND INSURANCE INDUSTRIES" on 04-04-23 by Mr.Raghunath, Investment advisor.

The speaker addressed students about current trends in mutual funds and insurance industries. He highlighted the recent trends which made investing in mutual funds and insurance policies very familiar to the investors. He also explained the career opportunities in money market. He stressed on the importance of savings in early age. He provided students some helpful tips and examples of analyze the risk management in mutual funds.

The guest speaker made the session more interactive and continued his talk and said how Social media has proven to be one of the most effective marketing tools of recent trends in mutual funds and many organizations are hiring investment advisors to help them maximize their reach and improve engagement.

The participants seemed very interactive and happy as they were excited to know investment avenues with profit and risk associated

Finally Mr. Raghunath went with a question and answers session, were all the students asked their doubts and got clarification. The event came to an end, by concluding note " Successful investment is about managing the risk, not avoiding it" He concluded the session by 12.30 pm.

The feedback was collected at the end of session from the beneficiaries and resource person for catering further need & improvement.

S Raghunath – Profile

Educational Qualifications – B.Sc., CAIIB, PGDM (Fin Management), MBA.,
Total experience - 4 decades

- Banking - 7 years
- Mutual Fund (AMC) - 19 years
- Investment Advisory Firm - 8 years
- Software industry - 5 years

Banking (1983-90)

- Canara Bank (1983-85) in clerical cadre
- Corporation Bank (1985-90) as Probationary Officer (Direct Officer) in a branch in Bangalore.

Mutual Fund (Unit Trust of India /UTI Mutual Fund – 1990-2008)

At Corporate Office

- Was part of UTI's Treasury (Money Market Desk) which managed the liquid cash of the organisation with the peak amount of about Rs.4500 Crores in early 1990s.
- Management of the cashflow movement for the entire AMC
- As a Money Market Dealer, dealt with Investment-divestment in the money market and G-Secs
- Coordinated with RBI for the quotes for Repo of Government securities
- Maintained and reviewed Fund accounting and apportioning of assets to various schemes.
- Was responsible for the MIS to top management regarding operations in Treasury
- Tracking and reporting the investment performance of the Money Market Desk to the top management.
- Was responsible for providing key NAV information to offshore funds for arriving at the final NAV.

At Zonal office

- Coordinated, prepared and finalized Annual Accounts for the entire southern zone with the statutory auditors
- Responsible for the Cash flow management in the zone
- Was responsible for the marketing and sales support for the entire Zone (approx AUM – INR 150 Billion in mid-90s) across 4 Southern States;
- Annual Publicity Budget of about INR 20 million to market the schemes in media (with the approval of the zonal top management)

- Successful conduct of many Zonal level events of sales team with at least 100 participants each

At Bangalore

- Headed the Bangalore branch covering about 6 six districts around Bangalore. Retail business grew dramatically and institutional business grew virtually from zero to 1000 Crores.
- Headed Bangalore Region (Karnataka & the then unified Andhra Pradesh comprising of the present AP and Telangana). Led the team from 15 branches and more than 3000 channel partners to surpass the various corporate targets.

Financial Advisory Firm (2008-16)

- Headed the institutional sales team and was responsible for business and P&L. The vertical did extremely well that the Assets under Advice went up from about 1200 crores to cross 6000 crores within about 3 years.

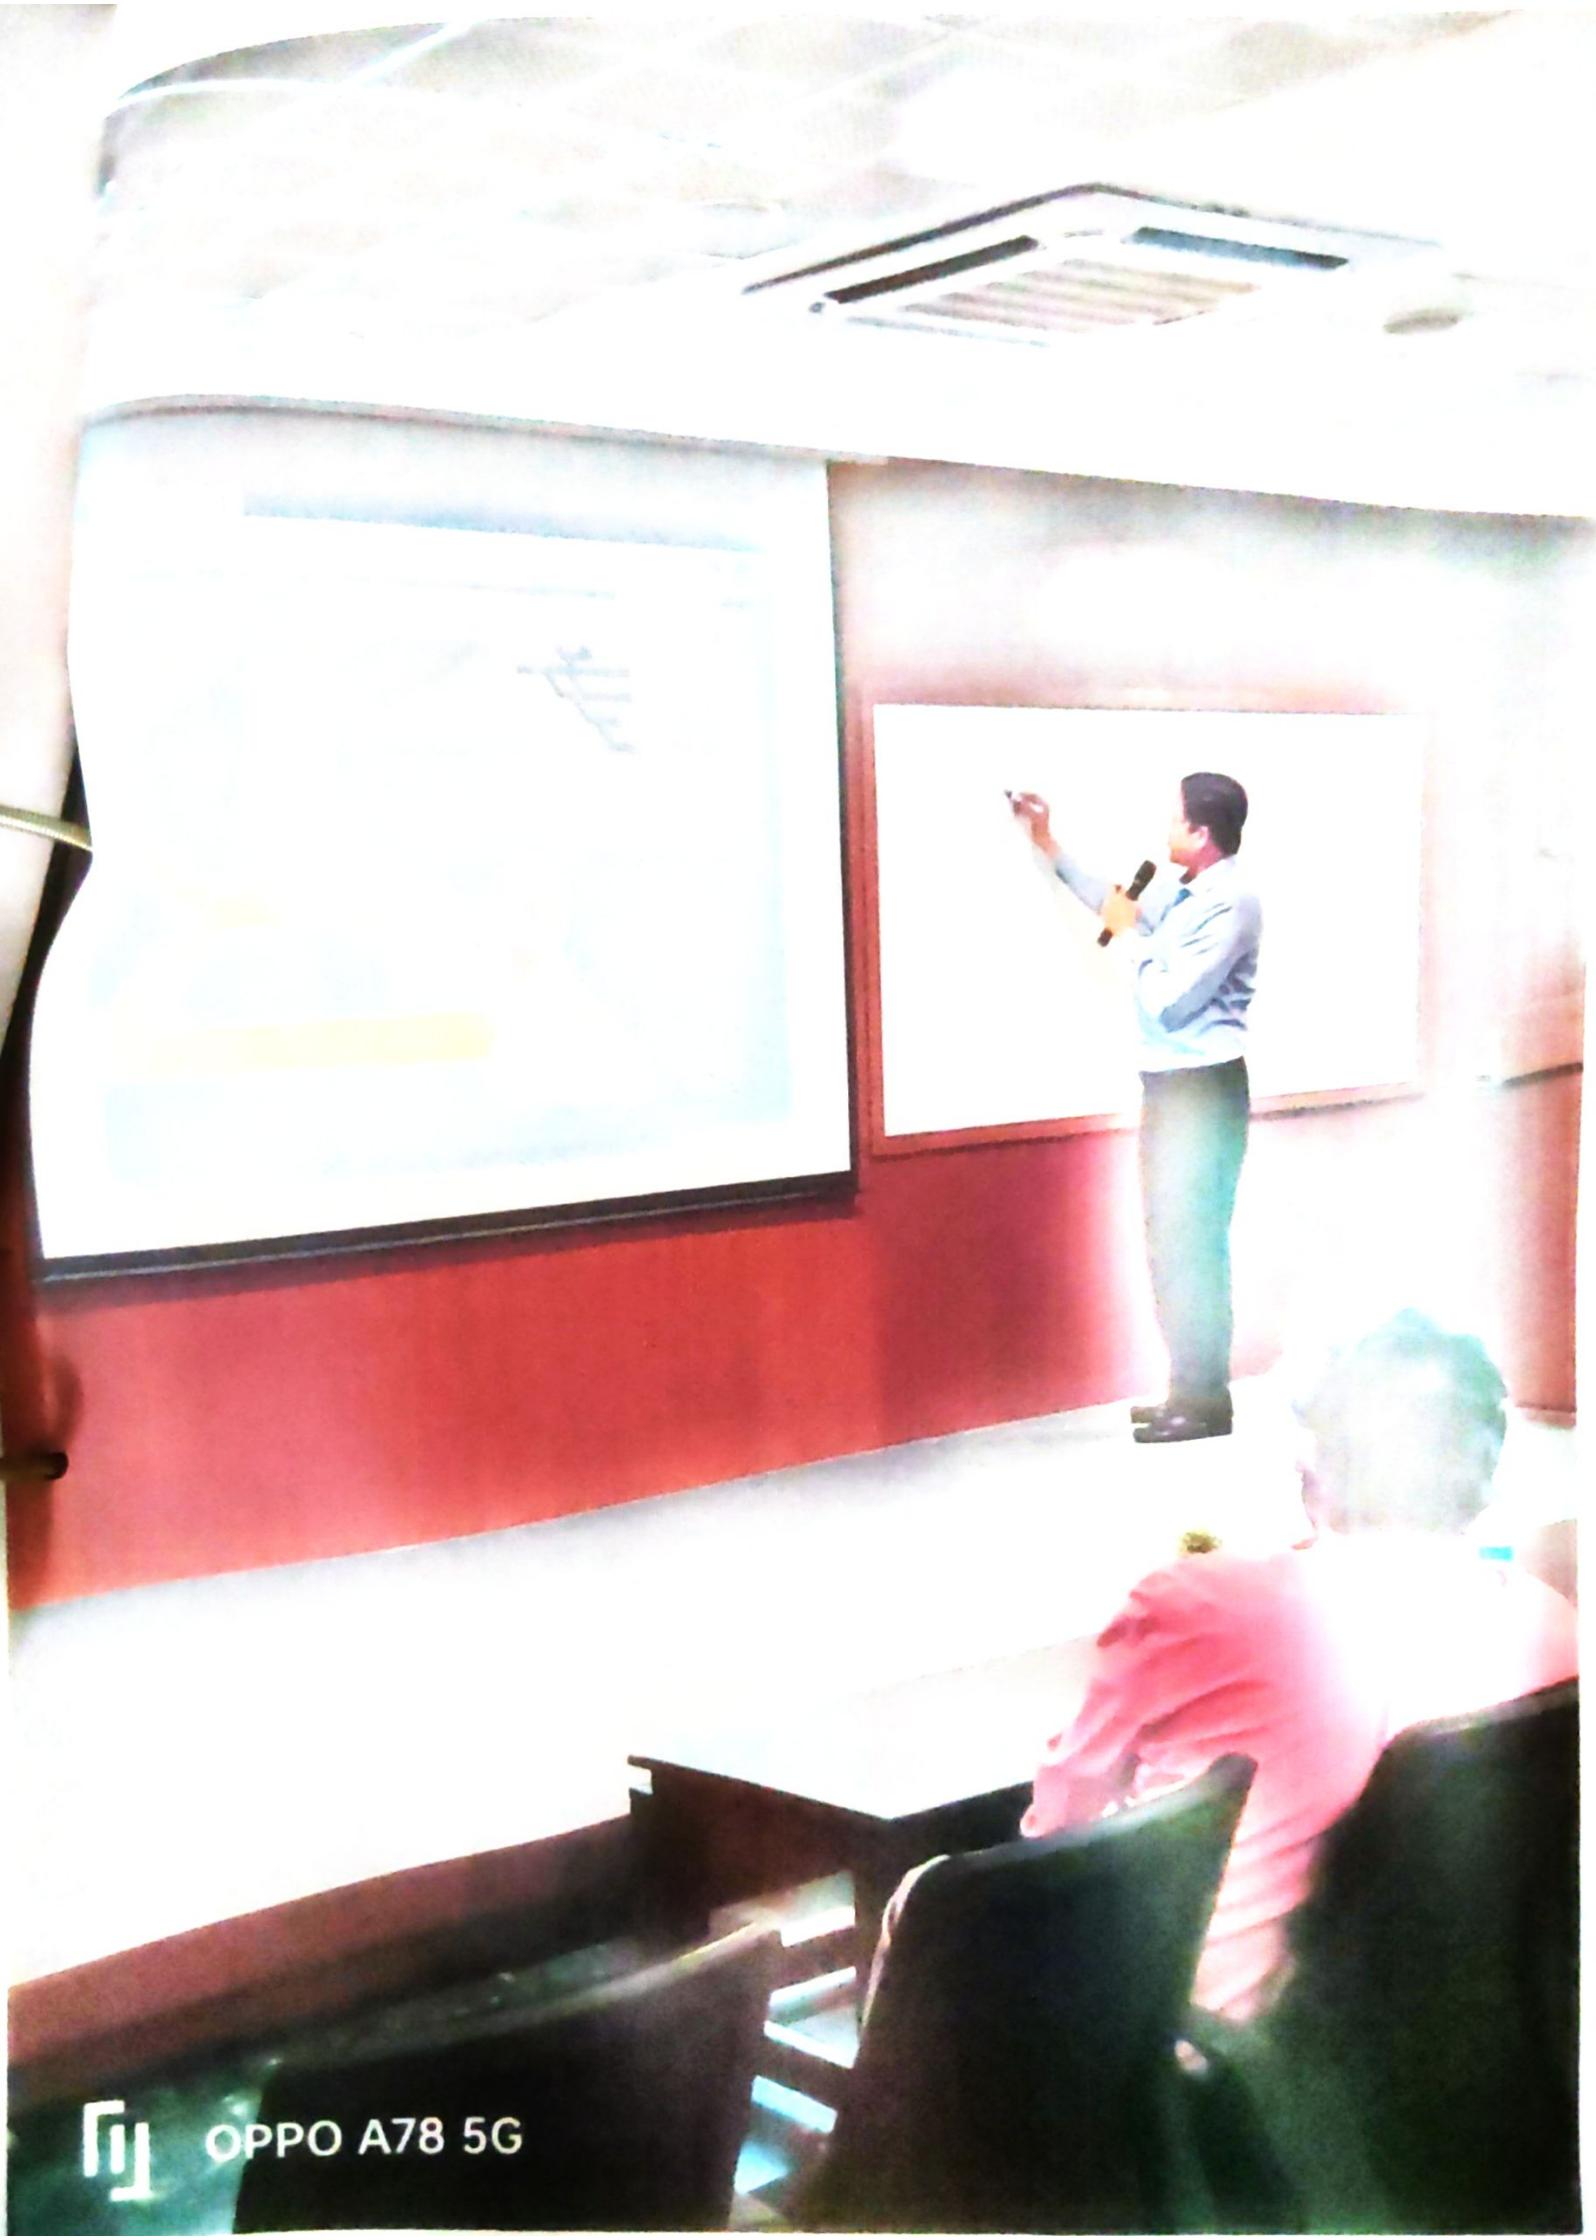

Mutual Fund (DHFL Pramerica – 2016-2017)

- Headed the institutional sales for Karnataka and the Assets under Management went up from about 700 Crores to 1800 crores within one year.

Software Industry (2018-2022)

- A start-up with a product meant for Company Secretaries to automate the process of compliance under Companies Act 2013 and SEBI's LODR.
- Involved concept selling from a start-up thus making it a challenging but great opportunity
- Headed the sales team and acquired almost all the clients for the company during the period and the owners have since sold the company for a very good price.
