

21/10/22

To,
The Principal
Indian Academy Degree College – Autonomous
Bangalore - 43

Dear Sir,

Sub: Alumni Talk on Saturday 22nd October 2022.

The Department of Humanities in association with Indian Academy Alumni Association (IAAA) is planned to organize Alumni Engagement on **“I did it, You are next”** for B.A students of Indian Academy Degree College Autonomous on **Saturday 22nd October 2022 at 11:15 am in Block II S4 .**

We request you to grant us permission for the same.

Thank you

Yours faithfully

HEAD OF THE DEPARTMENT
Department of Humanities
INDIAN ACADEMY DEGREE COLLEGE

CIRCULAR

The Department of Humanities in association with Indian Academy Alumni Association (IAAA) is organizing an Alumni Engagement for B.A Students on **22.10.2022 at 11:15 am**. All the students and faculty members are invited for the Guest Lecture.

Resource Person	Title	Venue
Ms. Tanushita Asi Digital Marketing Executive, TradePass	"I did it, You are next"	S4 Block II.

Objectives

1. To inspire and motivate the students on setting higher goals.
2. To encourage students to take part in curricular and extra-curricular activities.

Learning Outcome

1. To understand students' career path.
2. To apply academic skills in the context of real-world.

Alumni Engagement

Title of the Event: "I did it, you are next"

Place: Indian Academy Degree College Autonomous, Bengaluru

Date: 22-10-22

Time: 11:15am

Broad Aim of the Event:

To motivate the students as well to badge the newly elected leaders

Objectives:

1. To inspire and motivate the students on setting higher goals.
2. To encourage students to take part in curricular and extra-curricular activities.

Outcomes:

1. To understand students' career path.
2. To apply academic skills in the context of real-world.

Brief details about the event:

The title of the alumni engagement was "I did it, you are next". Ms. Tanushita Asi was the first Alumni. She spoke about her successes and how she turned her failures to her advantage. Ms. Tanushita talked with personal experience and was focused on helping the current students with anything they required. She told the students about how the path you take does not always lead to the destination you want. She also mentioned that no matter the risks in the future, the students should continue to work with determination and will, as she did. Later she ended her talk by offering to help in any way the students want even after clearing several doubts by the students.

GUEST LECTURE

Speaker: *Ms. TANUSHITA ASI*

Designation: *DIGITAL MARKETING EXECUTIVE, TRADE PASS*

Topics: *I DID IT, YOU ARE NEXT*

Nature of Audience: *BA STUDENTS*

Date & Time: *22.10.22 11:30 am - 1:10 pm.*

Views of the Speaker: *Attentive and interactive students.
Interesting session with interesting questions.*

Tanushita

Views of the beneficiaries

Remarks

- Very motivate*
- Encourage to take part in all round.*

Tanushita Asi
I have gained knowledge and skills
required to succeed in a
stimulating and challenging
environment, with hard work
and perseverance.

About Me

I am currently working as a Digital Marketing Executive for an IT company in Malaysia. I am a passionate writer. I love writing and can take up any challenges thrown at me. I can write blogs, articles and website content for any format. I am also a good story-teller.

Work Experience

Event Marketing Manager

Tradepass | February 2021- Present

- B2B event marketing
- Email and Social media campaigns for events

Digital Marketing Executive

Nearsource Sdn Bhd | January 2020- January 2021

- Created official websites through Wordpress from scratch
- Wrote and managed content for the official websites
- Wrote, shot and edited promotional videos for the company
- Created a Social Media campaign and designed various posts to create awareness during the lockdown

Internship

Fever FM (Mumbai) | 2018 - 2019

- Worked on Scripts for Radio Drama
- Was involved in Production (Recording, and Editing)
- Managed Logistics and Schedules

Content Writer

Digittude (Start Up) | January 2018- July 2018

- Worked on an Online Health Magazine
- Interviewed doctors, researched and wrote health-related articles.
- Wrote blogs to create awareness and provide information for cancer

Internship

Mirror Now (News Channel) | February 2017- May 2018

- Assisted News Producer
- Wrote News Scripts
- Wrote headlines and captions for News stories
- Created News Bulletins
- Researched for prime time debate shows

Academic History

COMMITTS 2016-2018

MA | Audio Visual Communication

- Interned at a Community Radio
- Wrote and directed Short film and Video Documentary for college projects
- Produced Radio drama and Radio documentary as part of college projects.
- Won 2nd place in Integrated Marketing Communications (IMC) Mock Pitch

Indian Academy Degree College 2013-2016

BA | Journalism, Psychology, English Literature

- Worked as a student editor/reporter for Newscafe, the college newspaper.
- Worked on various presentations, won 1st place for best presentation
- Wrote Press Releases for College events

Objectives

1. To foster good rapport between the management, staff and students.
2. To encourage, foster and promote close relations among the alumni themselves.
3. To promote a sustained sense of belonging to the Alma Mater among the Alumni by being in regular contact.
4. To create a strong network for alumni progression as well as student's progression.

Outcomes

1. To help out the current students at the institute as well as their batch mates.
2. To motivate the freshers to pursue the course with enthusiasm and promptness and take the guidance of the alumni if needed for their growth and internships.

1. Ms Madhumita L, Centre Director, Rio Preschool, Bangalore
2. Ms Sandhya C, HR Assistant – Amazon, Escalations Specialist

The Department of BBA organized Alumni talk on 12th November 2022, Saturday which was conducted in Seminar Hall 2. Our Alumni came with lot of enthusiasm and pride to their Alma matter, the ex-students were working at good organizations. They met the teacher and staff people and told about their accomplishments. College had welcomed them with warmth. The Alumni were invited to the dais to share their experiences and some of the thoughts expressed by them were:

- Felt very happy and joyful

- Appreciated that the programme was organized in a planned manner
- Felt happy while seeing the college again with vast development
- Shared their employment details
- Some of the Alumni expressed their willingness for helping the present students for placement

Address by Principal

Our Principal Dr Srinidhi K. Parthasarathigave the felicitation where in it was said that Alumni Talk is an opportunity to meet the colleagues and to see the college once again with heartfelt memories.

Vote of Thanks

Mrs S.Shalini Prof. & Head,BBA proposed the vote of thanks. She thanked the Alumni for taking the time to come for the Alumni Talk who have made it a very special and memorable one. She thanked the various organizers of the event (teaching, non-teaching staff and the enthusiastic student volunteers) whose hard work and dedication made the event possible. She also thanked the management of IADC-A for the support and guidance which has made Alumni Talk2022 a grand success.

Circular

23/01/2023

Department of Chemistry is organizing a Guest lecturer series on "Synthesis of Liquid crystal compounds and their applications" on 27th January 2023 at 11.00am-12.30pm for M.Sc -I Sem and III Sem (Chemistry) students.

Speaker	Topic	Venue
Dr.Ashwathnaryana Gowda	Synthesis of Liquid crystal compounds and their applications	Seminar Hall-II

Learning Objectives

- To provides background information regarding the chemical composition and terminology, development and uses of liquid crystal compounds.
- To develop knowledge and skills on technological system function.
- To create an awareness among students about current research in Synthesis of Liquid crystal compounds and their applications

Learning Outcomes

- Students understand the unusual optical and electrical properties of liquid crystals.
- Students learn the dispersion of single-walled carbon Nanotubes & Multi-walled carbon Nanotubes in liquid crystal matrix, characterization and its applications.
- Students gain insights on new lines of research that is ongoing on Synthesis of Liquid crystal compounds and their applications.

Report on Guest lecturer series

Title of the Event: Synthesis of Liquid crystal compounds and their applications

Venue: Seminar Hall-II IADC-A, Hennur Cross, Bangalore-43

Date: 27/01/2023

Time: 11.00am to 12.30pm

OBJECTIVES

- To provides background information regarding the chemical composition and terminology, development and uses of liquid crystal compounds.
- To develop knowledge and skills on technological system function.
- To create an awareness among students about current research in Synthesis of Liquid crystal compounds and their applications.

OUTCOME OF DSR

- Students understand the unusual optical and electrical properties of liquid crystals.
- Students learn the dispersion of single-walled carbon Nanotubes & Multi-walled carbon Nanotubes in liquid crystal matrix, characterization and its applications.
- Students gain insights on new lines of research that is ongoing on Synthesis of Liquid crystal compounds and their applications.

Brief details about the event:

Department of Chemistry organized a Guest lecturer series on "Synthesis of Liquid crystal compounds and their applications" on 27th January 2023 at 11.00am-12.30pm for M.Sc –I Sem and III Sem (Chemistry) students.

Dr. Shyam Sunder, HOD Chemistry welcomed the gathering.

Dr. Ashwath Naryana emphasized his talk on the topic Synthesis of Liquid crystal compounds and their applications in various fields.

Students are actively participated in the guest lecturer series. Followed by this the speaker explained about the carrier path for chemistry students after successful completion of M.Sc.

The event ended with active interaction of the students with the speaker during questionnaires.

Mrs.Latha.V, Associate professor from Chemistry Department proposed the Vote of thanks.

Feedback about the event was collected from the students by using Google form.

Liquid Crystal and their Applications

Liquid crystals are a unique state of matter, between solid (crystalline) and liquid (isotropic) phases some compounds form a distinct, different intermediate phase, sometimes referred to as the “fourth state of matter” or “mesophase”. These compounds display properties of both solid and liquid. Anisotropic intermolecular interactions of the molecules, or mesogens, within a liquid crystalline material mean that the molecules possess some orientational or positional order but with a lower degree of organisation compared with a crystalline solid. This means liquid crystal possesses liquid-like flowing behaviour, but because of their positional order, such compounds are often more viscous. Liquid crystals are attributed to their sensitivity to various stimuli, such as temperature, electric and magnetic fields. This sensitivity, combined with the self-assembling behaviour of liquid crystals make them extremely interesting and fascinating

Characteristics of Liquid Crystal

Liquid crystal materials generally have several common characteristics. Among these are a rod-like molecular structure, rigidity of the long axis, and strong dipoles and/or easily polarizable substituents.

The distinguishing characteristic of the liquid crystalline state is the tendency of the molecules (mesogens) to point along a common axis, called the director. This is in contrast to molecules in the liquid phase, which have no intrinsic order. In the solid state, molecules are highly ordered and have little translational freedom. The characteristic orientational order of the liquid crystal state is between the traditional solid and liquid phases and this is the origin of

the term mesogenic state, used synonymously with liquid crystal state. The average alignment of the molecules for each phase in the following diagram.

Classification of Liquid Crystals

Liquid crystals are classified in many ways, molecules within the mesophases (mesogens) can be calamitic (rod-like), discotic (disc-like), amphiphilic, nonamphiphilic, metal containing, non-metal containing and low molecular weight or polymeric. Liquid crystals either show thermotropic behaviour or lyotropic behaviour. Thermotropic behaviour means the compounds are liquid crystalline within a defined temperature range, below this range compounds are crystalline and above it compounds are isotropic liquids. Thermotropic liquid crystalline compounds also require no solvent. Lyotropic liquid crystals are dependent on solvents, where solvent concentration affects aggregation and

Solid phase:
orientation and
periodicity

Liquid phase:
no orientation
or periodicity

**Nematic
phase:**
orientation, no
periodicity

**Smectic
phase:**
orientation with
some periodicity

There are many classes and sub-classes of liquid crystals, but for the purposes we will divide them into the two types-

Nematic

In a nematic phase (the term means "thread-like") the molecules are aligned in the same direction but are free to drift around randomly, very much as in an ordinary liquid. Owing to their polarity, the alignment of the rod-like molecules can be controlled by applying an electric field; this is the physical basis for liquid crystal displays and certain other electro-optic devices.

nematic

Smectic

In smectic ("soap-like") phases the molecules are arranged in layers, with the long molecular axes approximately perpendicular to the laminar planes. The only long-range order extends along this axis; with the result that individual layers can slip over each other (hence the "soap-like" nature) in a manner similar to that observed in graphite. Within a layer there is a certain amount of short-range order. There are a large number of sub-categories of smectic phases which we will not go into here. Smectic liquid crystal has been found to have fast electro-optical response time and because of this is used, along with nematic liquid crystal, in producing liquid crystal display (LCD) screens.

smectic

Application of Liquid Crystals

1. Research on optical & electrical properties of these unique compounds attracted very much by scientific and industrial community. Later, research at a number of industries, universities and government laboratories began to focus on their applications, which exploited the electro-magneto-optic characteristics and photoelectric properties of nematic and cholesteric type liquid crystals.
2. Cholesteric liquid crystal substances, when applied to the surface of the skin, have been used to locate veins, arteries, infections, tumors and the fetal placenta which are warmer than the surrounding tissues.

3. Nematic liquid crystal are useful research tools in the application of magnetic resonance. Molecules that are dissolved in nematic liquid crystal solvents give a very highly resolved NMR spectrum exhibiting intermolecular dipole-dipole fine structures. Analysis of the spectra of molecules in liquid crystal solvents yield information regarding the anisotropy of chemical shifts, direct magnetic dipole-dipole interaction, indirect spin-spin couplings, bond angles, bond lengths, molecular order and relaxation process.

4. Liquid crystals have been used in chromatographic separations¹³⁸ as solvents to direct the course of chemical reactions and to study molecular arrangements and kinetics and as anisotropic host fluid for visible, UV and IR spectroscopy of organic molecules.

4. liquid crystals are widely used in cosmetic industry in manufacturing of liquid crystal makeup removers, lipsticks and lip glasses containing cholesteric liquid crystals.

5. Liquid crystals are using extensively in pharmaceutical industries.

6. Liquid crystal displays are common in calculators, digital watches, oscillaographic systems, television displays using L.C. screens has also been developed. Cholesteric liquid crystals have also been used for novelty items such as toys and decorative materials.

7. Liquid crystal polymers also gained much interest on industrial applications. polyester liquid crystals were developed for fire resistant, and are used as coating for multifibre, optical cables due to good surface roughness, low coefficient of friction. Polyesters are used for moulding with improved elastic modulus. Ferroelectric liquid crystals, mesomorphic free radicals are used for EPR study and colourless large pitch cholesterics has been developed.

INDIAN ACADEMY DEGREE COLLEGE - AUTONOMOUS

Circular

31.03.23

Department of Genetics is organizing a Guest Lecture for M.Sc. Applied Genetics Students on 1st April 2023 at 11.15am. Hence I request all the Applied Genetics Students to attend the lecture.

Speaker	Topic	Venue
Mr. Shubham Kumar Clinical Database Programmer Parexel international Bellandur.	"Overview of Clinical Research".	Genetics Lab.

Objectives:

1. To enable the students to acquire knowledge on Human diseases, precautions and treatments.
2. To understand therapeutic interventions and clinical trials of the diseases.
3. To acquire in-depth understanding of the mechanism of human diseases and development of new technologies to design drug.

Learning Outcomes:

1. Students will be able to understand Human diseases, precautions and treatments.
2. They will be able to understand Patient-oriented research, research conducted with human subjects.
3. They will be able to understand therapeutic interventions and clinical trials of the diseases.

GUEST LECTURES

Speaker : Mr. Shubham Kumar
Designation : Clinical Database Programmer
Parxel International, Bellandur.
Topics : Overview on Clinical Research
Nature of Audience : M.Sc. Applied Genetics & V/50^m B.Sc
(FBCBT/MB)
Date & Time : 01-04-23 (11.15 to 12.35)

Views of the Speaker : Interest of student is commendable,
Good and healthy discussion, it was pleasure to
present my knowledge with sincere and curious students.
Thank you, Genetics department (IADC) for providing this
opportunity.
Signature of the guest

Views of the beneficiaries

- * The session conducted conveyed in depth about clinical research and enhanced our knowledge for the same.
- * It was informative regarding internship programs and how we could benefit out of it.

Alumni Activity
Guest Lecture "Overview of Clinical Research"

Speaker:

Mr. Shubham Kumar
Clinical database programmer
Parexel international
Bellandur.

Date:01.04.2023

Time: 11:15am – 12.30pm

Faculty in-charge: Dr.Vanitha G Ramesh

Objectives:

1. To enable the student to acquire knowledge on human diseases, precautions and treatment.
2. To understand therapeutic interventions and clinical trials of the diseases.
3. To acquire in depth understanding of the mechanism of human diseases and development of new technologies to design drug.

Event Summary:

The lecture was conducted by Shubham Kumar, who is a Clinical Database Programmer II in PAREXEL International, with over 4 years of experience in the pharmaceutical industry. Mr. Kumar shared his expertise in the field of clinical database management, including protocol interpretation, database preparation,

and report programming. He also highlighted his therapeutic experience, which includes Oncology, Immunology, and Dermatology.

Key Takeaways:

1. Protocol Interpretation:

Mr. Kumar emphasized the importance of proper protocol interpretation, as it is the foundation for the successful execution of clinical trials. He explained that the interpretation of the protocol should be done in a way that is clear and unambiguous, to avoid any misinterpretations during the trial.

2. Database Preparation:

Mr. Kumar shared his experience in preparing databases for various CDMS tools such as Medidata Rave, Medrio, and Veeva. He highlighted the importance of adhering to the CDISC (Clinical Data Interchange Standards Consortium) standards, which are used for the exchange of clinical trial data.

3. Report Programming:

Mr. Kumar shared his expertise in report programming using business object tools. He explained that reports are an essential component of clinical trials, as they provide insights into the trial's progress and efficacy. He emphasized the need for accuracy and attention to detail in report programming, as even a small error could lead to incorrect conclusions.

4. Therapeutic Experience:

Mr. Kumar highlighted his therapeutic experience, which includes Oncology, Immunology, and Dermatology. He explained that the knowledge of the therapeutic area is essential for the successful execution of clinical trials, as it helps in the interpretation of the data and identification of any adverse events.

Conclusion:

Overall, Mr. Kumar's lecture was informative and insightful, providing valuable insights into clinical database management. His expertise in protocol interpretation, database preparation, and report programming, along with his therapeutic experience, make him a valuable asset to the pharmaceutical industry. The lecture was a great learning opportunity for students and professionals looking to expand their knowledge in this field.

Learning Outcomes:

1. Able to understand human diseases, precautions and treatments.
2. Students understood patient-oriented research conducted with human subjects.
3. Students acquire knowledge in therapeutic interventions and clinical trials of the diseases.

REPORT ON ALUMNI MEET

INTRODUCTION:

The Alumni meet was conducted by The Department of Business Administration, where former students were invited to address present students. The meet was conducted with the purpose of familiarizing the students with the corporate environment and educating them on the skills required to grow in the industry, from the alumni's experiences.

Date: 15th April 2023 in Room No. 519.

Two Alumnis were invited to address the students:

Mr. Arvind Subramani

Mr. Paul Chembian

OBJECTIVES:

- To create a rapport between alumni and present students to keep the iadc spirit alive.
- To make the students aware of the corporate world and it's requirements even before they graduate.
- To help students build connections in the industry through alumnis.
- To honour the alumni for their success and growth in life and giving them a platform to share their experiences in the corporate world.

OUTCOME OF THE SESSION:

- The students were able to delve deeper into the true side of corporate world, by getting a detailed understanding.

- The alumni solved various queries and doubts of the students regarding the skills required, industry competition and survival and growth prospects.

SESSION 1:

The session started with Profile Reading of the first Guest Mr. Paul Chembian by Ms. Rimsha Bi Bi Zainab, 6th sem BBA.

PROFILE:

Mr. Paul Chembian is an enthusiastic learner with a strong commitment to his duties. His aim is to enhance his management career by exploring esteemed and highly professional organizations.

Mr. Chembian is currently working as an Onboarding Success Partner or Onboarding Specialist, where he is responsible for integrating new hires into the organization by providing them with an initial orientation process.

The morning session started around 10:30 a.m. and lasted till 11:00 a.m. which was led by Mr. Paul Chembian

The session started with Mr. Paul recalling his memories in college and how he once used to sit in the same place as us. He mentioned how happy he was to be back as a successful person. He then had a short conversation with the students on their college life and then went on to talk about his experience in the industry, all certificate courses and internships he had to do to land into a good job and also advised students on various skills required to sustain in corporates. He closed the session by wishing all the students success in their endeavours.

The guest speaker had educated students on a variety of topics, including the challenges faced by fresher's in corporates and practical world.

He also educated students on the importance of acquiring soft skills and technical skills.

SESSION 02:

The next session was led by **Mr. Arvind Subramani**

The second session started with a guest profile reading by Ms. Rimsha BiBi Zainab, 6th sem BBA.

PROFILE:

Mr. Arvind is a dedicated and hardworking individual who possesses high-energy and is a dedicated IT Help Desk Technician with over four years of experience.

Currently, Mr. Arvind is working as a Senior Representative Operations in the Thrive banking process at Concentrix Pvt. Ltd in Bangalore, where he provides high-quality service to achieve maximum customer satisfaction by resolving customer queries at first contact wherever possible.

Mr. Arvind continued the session after Mr. Paul, and he showed his gratitude to the teachers and the college for making him a better student. He began the session by asking students about their interests and goals and enquiring about the measures they are taking to fulfill these goals. He then advised students on things they should avoid and things they should focus on in building a career. He closed the session by advising students to start working on their goals right away.

He educated the students on the importance of communication and provided helpful tips on do's and don'ts of communication.

He had a meaningful interaction with students on their career goals and advised them on the ideal path to choose.

FELICITATION:

The guest speakers were then presented with a memento as a token of gratitude by Professor Kesavan and Professor Deepa, thanking them for taking time out of their busy schedules and addressing the students.

VOTE OF THANKS:

The session concluded with a vote of thanks from Ms. Rimsha BiBi Zainab, thanking the Guests for joining, the teachers for inviting the guests and organizing the talk and lastly the students for their patience and attentive listening.

CONCLUSION:

We thanked the speakers who gave us valuable inputs and the students were keenly interested to attend the sessions.

It was a privilege to have two distinguished guest lecturer, **Mr. Arvind Subramani** and **Mr. Paul Chembian** who have accomplished so much since their time here, and we certainly learnt a great deal from them today.

Objectives

1. To foster good rapport between the management, staff and students.
2. To encourage, foster and promote close relations among the alumni themselves.
3. To promote a sustained sense of belonging to the Alma Mater among the Alumni by being in regular contact.
4. To create a strong network for alumni progression as well as student's progression.

Outcomes

1. To help out the current students at the institute as well as their batch mates.
2. To motivate the freshers to pursue the course with enthusiasm and promptness and take the guidance of the alumni if needed for their growth and internships.

1. Ms Madhumita L, Centre Director, Rio Preschool, Bangalore
2. Ms Sandhya C, HR Assistant – Amazon, Escalations Specialist

The Department of BBA organized Alumni talk on 12th November 2022, Saturday which was conducted in Seminar Hall 2. Our Alumni came with lot of enthusiasm and pride to their Alma matter, the ex-students were working at good organizations. They met the teacher and staff people and told about their accomplishments. College had welcomed them with warmth. The Alumni were invited to the dais to share their experiences and some of the thoughts expressed by them were:

- Felt very happy and joyful

- Appreciated that the programme was organized in a planned manner
- Felt happy while seeing the college again with vast development
- Shared their employment details
- Some of the Alumni expressed their willingness for helping the present students for placement

Address by Principal

Our Principal Dr Srinidhi K. Parthasarathigave the felicitation where in it was said that Alumni Talk is an opportunity to meet the colleagues and to see the college once again with heartfelt memories.

Vote of Thanks

Mrs S.Shalini Prof. & Head,BBA proposed the vote of thanks. She thanked the Alumni for taking the time to come for the Alumni Talk who have made it a very special and memorable one. She thanked the various organizers of the event (teaching, non-teaching staff and the enthusiastic student volunteers) whose hard work and dedication made the event possible. She also thanked the management of IADC-A for the support and guidance which has made Alumni Talk2022 a grand success.

CIRCULAR

The Department of Humanities in association with Indian Academy Alumni Association (IAAA) is organizing an Alumni Engagement for B.A Students on **28.04.2023 at 11:15 am**. All the students and faculty members are invited for the Alumni Guest Lecture.

Resource Person	Title	Venue
Ms.Trishala Ballal Marketing Operations Manager, Justbe Resto Cafe	“How to fail Successfully in Life”	Seminar Hall II.

Objectives

1. To overcome their fear of failure, and come out of their comfort zone.
2. To help students who have failed at things, realise that there's a bright side to failure.

Learning Outcome

1. After this session students will have a more positive outlook towards the prospect of failure.
2. Students could be more predisposed to participate in new things, no longer hampered by the thought of failure.

get ready for life

Title of the Event: How to fail successfully in life

Place: Seminar Hall 2

Date: 28th April 2023

Time: 11:00 A.M

Name of the Resource Person: Ms. Trishala Ballal

Broad Aim of the Event: To motivate students and give an exposure on how to overcome failure and use these failure as a stepping stone.

Objectives:

1. To discuss the stigma around failure in Indian society.
2. To share personal experiences of failure and overcoming them.
3. To emphasize the importance of self-reflection and learning from mistakes.
4. To encourage students to take risks and step out of their comfortzone.
5. To inspire students to pursue their passions and explore their interests.

Outcomes:

1. Students gained insights on how to overcome failure and personal growth.
2. Students were motivated to embrace their failures and learn from them.
3. Students were inspired to explore their interests and pursue their dreams.
4. Students learned about the value of taking risks and stepping out of their comfort zone.
5. The alumni talk reinforced the importance of self-reflection in personal growth and development.

Brief details about the event:

On 28th April 2023, Ms. Trishala Ballal, an alumna of Indian Academy who graduated in 2021, gave an alumni talk on "How to Fail Successfully in Life." Ms. Trishala shared her experiences of foraying into college later than most Indians and her adventures during her time at Indian Academy. She also talked about her current pursuits and plans for the future. Ms. Trishala began her talk by discussing the stigma around failure in Indian society and how it can hinder personal growth. She shared her own experiences of failure and how she learned to overcome them. Ms. Trishala emphasized the importance of self-reflection and learning from mistakes. She also spoke about the value of taking risks and stepping out of one's comfort zone.

Ms. Trishala shared her journey of working for the Korean government as a translator, working at Charlie's Animal Rescue Centre, and as a Content Writer for an online magazine. She also spoke about her current pursuit of a Post Graduate Diploma in Integrated Marketing Communications at Commits and her experience as a Marketing Operations Manager at Justbe Resto Café. Ms. Trishala discussed her passion for event coordination, content curation, and social media marketing.

Ms. Trishala's talk reinforced the importance of self-reflection and taking risks in life, and she left the students with a message to embrace their failures and learn from them. The alumni talk was a reminder that success is not just about achieving one's goals but also about overcoming obstacles and growing as a person.

DEPARTMENT OF HUMANITIES
ALUMNI ENGAGEMENT
"HOW TO FAIL SUCCESSFULLY IN LIFE"
28th April 2022

Profile's

Trishala Ballal is an alumni of Indian Academy, having graduated in 2021.

She forayed into college a little later than most Indians, having had experience working for the Korean government as a translator, working for two years as a senior volunteer at Charlie's Animal Rescue Centre and worked as a Content Writer for an online magazine called The Unseen Protagonist.

While at college she had many adventures that she'd like to talk about later during her address.

Currently she is pursuing her Post Graduate Diploma in Integrated Marketing Communications at Commits, and has also worked as the Marketing Operations Manager at Justbe Resto Café, leading a team of budding marketeers into the field of social media marketing, event coordination and content curation.

She has organised Bangalore's premium ethical, sustainable and cruelty-free flea market, the FACE IT Flea, that has hosted over 50 brands from across the country and has seen a footfall of over 800 people.

She's plans to deepen her knowledge of the marketing field and become a prominent figure in the industry.

Right now she's just excited to be back at Indian Academy, her old home for 3 years, and to talk to her juniors.

Report on Alumni interaction on "Skills required to join companies"

Date: 25-05-2023

To,

The Principal,
Indian Academy Degree College-Autonomous
Bangalore-43

Respected madam,

Subject: Permission to conduct an Alumni interaction from Dept. of Biochemistry

Target Students: IV semester MSc Students

The Department of Biochemistry would like to organize an Alumni interaction for IV semester MSc Students. This interaction can enhance their skills required to join some good companies. I request you to kindly permit us to organize this activity.

Faculty-in-charge: Dr. Pushpa K (Dept of Biochemistry).

Thanking you madam.

Kind Regards,

Dr. Ananda Vardhan. H.

Ref.No. BC/2022-23/AI/01

Date: 25-05-2023

CIRCULAR

This is to inform that the Department of Biochemistry, Indian Academy Degree College-Autonomous is organizing an Alumni interaction for IV semester MSc Students enhance their skills required to join some good companies on 26th May 2023.

Date: 26th May 2023

Time: 12.30 pm – 1.30 pm

Venue: Biochemistry Lab 1

Alumnus details: Mr. Chandrashekhar Aradhya, Associate Microbiologist, Eurofins Analytical Service, Bangalore.

Objectives of the Alumni interaction:

1. To provide valuable insights to postgraduate students regarding the skills required to join companies in their respective fields.
2. To bridge the gap between academic knowledge and industry expectations by enlightening students about the specific skills that companies are looking for in potential candidates.
3. To enhance the employability of students by informing them about the essential skills needed to succeed in the job market. It will focus on both technical and soft skills, highlighting their significance in securing employment.

Outcomes of the interaction:

1. Students gain a comprehensive understanding of the skills required to secure employment in their respective fields.
2. This interaction will enrich students' knowledge, help them identify crucial skills, and facilitate networking opportunities.
3. They will learn about the importance of skills such as communication, problem-solving, teamwork, adaptability, and industry-specific expertise.
4. Students will be motivated to strive for excellence and work towards acquiring the necessary skills.

Report on Alumnus interaction on “Skills required to Join Companies”:

Insights from Mr. Chandrasekhar Aradhya, Associate Microbiologist at Eurofins Analytical Services

Alumni Interaction: Date: 26th May 2023

Time: 12.30 pm – 1.30 pm

Venue: Biochemistry Lab 1

Alumnus details: Mr. Chandrashekhar Aradhya

Associate Microbiologist

Eurofins Analytical Service, Bangalore.

Target Students: MSc Biochemistry students

Venue: Indian Academy Degree College-Autonomous, MSc Biochemistry Department

Objectives of the Alumni interaction:

1. To provide valuable insights to undergraduate and postgraduate students regarding the skills required to join companies in their respective fields.
2. To bridge the gap between academic knowledge and industry expectations by enlightening students about the specific skills that companies are looking for in potential candidates.
3. To enhance the employability of students by informing them about the essential skills needed to succeed in the job market. It will focus on both technical and soft skills, highlighting their significance in securing employment.

Outcomes of the interaction:

The program successfully achieved the following outputs:

1. Students gained a comprehensive understanding of the skills required to secure employment in their respective fields. The alumnus Mr Chandrasekhar shared his insights and experiences, providing valuable information on the specific skills that companies seek in potential candidates.
2. This interaction effectively enriched students' knowledge, helped them identify crucial skills, provided practical guidance, inspired and motivated them, fostered

active participation, offered tangible takeaways, and facilitated networking opportunities.

3. They learned about the importance of skills such as communication, problem-solving, teamwork, adaptability, and industry-specific expertise.

Mr. Chandrasekhar's success stories and achievements served as a source of inspiration for the students. Witnessing their journey from academia to the corporate world motivated students to strive for excellence and work towards acquiring the necessary skills.

About the event

On 26th May 2023, the Biochemistry department of Indian Academy Degree College-Autonomous organized an alumni interaction on skills required to join companies. The esteemed guest speaker for the session was Mr. Chandrasekhar Aradhya, an accomplished alumnus and Associate Microbiologist at Eurofins Analytical Services. The objective of the talk was to provide valuable insights to the students and bridge the gap between academic knowledge and industry expectations. Mr. Chandrasekhar Aradhya's talk proved to be an enriching experience for the attendees. He began by sharing his personal journey and the challenges he faced during his transition from academia to the corporate world. Mr. Aradhya emphasized the importance of developing a strong skill set to enhance employability prospects.

Mr. Aradhya shed light on the specific skills that companies look for when hiring candidates in the field of microbiology. He stressed the significance of technical expertise in areas such as microbial identification, lab techniques, data analysis, and quality control.

Alongside technical skills, Mr. Aradhya highlighted the criticality of soft skills in the industry. Effective communication, teamwork, problem-solving, and adaptability were emphasized as essential qualities that differentiate candidates in the job market.

Drawing from his experience at Eurofins Analytical Services, Mr. Aradhya provided valuable insights into the workings of the microbiology industry. He shared information about the latest advancements, industry trends, and regulatory requirements that students should be aware of to align their skill set with industry needs.

The talk fostered active participation through an interactive Q&A session, where students enthusiastically posed questions to Mr. Aradhya. The engagement provided an opportunity for personalized guidance and further clarification on specific skills and career paths.

The alumni interaction by Mr. Chandrasekhar Aradhya served as a valuable platform for MSc Biochemistry students to gain insights into the skills required to join companies in the field of

microbiology and Biochemistry. The session bridged the gap between academia and industry, providing students with practical recommendations and industry-specific knowledge. This talk proved to be a stepping stone for students, empowering them with the necessary knowledge and motivation to enhance their employability and succeed in the competitive job market. The Biochemistry department of Indian Academy Degree College-Autonomous is grateful to Mr. Chandrasekhar Aradhya for his valuable contribution and looks forward to organizing more such alumni interactions in the future we are also grateful for his participation in our BOS meeting which was held on the same day from 10.30 to 11.30 am.

Event Report

Event Name: Guest talk on “Career Prospects in IT Industry”

Presented By: Ms. Nancy C N

Audience: Students of 2nd and 6th semester BCA

Date: 3-6-2023

Time: 10:15-11:10 am

Aim: To learn about different career opportunities in IT industry and learn about interview procedure.

Content: The guest talk was by our alumnus Ms. Nancy C N , Senior Associate, Global Human Resources. The session was informative and interactive. As she shared her college life and her experiences during job searching. She even spoke about difficulties she faced while facing an interviews. So students were interested to learn about all her experiences. She also shared about how she build her career as HR. Students also learned about interviews, how it happens, what type of questions can be asked in interview for HR and how to tackle those questions. She even suggested to concentrate on communication skills. The session was really informative and helpful to students.

Learning Outcomes:

- a. Students learned about different career opportunities they can pursue after education.
- b. Students learned about an interview procedure and type of questions can be asked.
- c. Students got some ideas about, how to tackle an interview.

To,

The Principal,
Indian Academy Degree College-Autonomous
Bangalore-43

Respected madam,

Subject: Permission to conduct an alumni interaction for MSc Biochemistry students.

Target Students: Final year MSc Biochemistry students.

The Department of Biochemistry would like to conduct a Career Guidance Interaction for MSc Biochemistry students under the purview of the Indian Academy Alumni Association on 16th Sept 2023 for M. Sc IV Semester Biochemistry students. This event will not only complement the academic curriculum but also serve as a platform for students to engage with industry professionals and alumni, fostering a spirit of curiosity, ambition, and lifelong learning.

I request you to kindly permit us to organize this event.

Thanking you madam,

Kind Regards,

Dr. Ananda Vardhan.H.

Date: 16-09-2023

CIRCULAR

This is to inform that the Department of Biochemistry, Indian Academy Degree College- Autonomous is conducting an alumni interaction for M.Sc IV Semester Biochemistry students on 16th September 2023.

Objectives:

1. To provide career guidance and insights to MSc Biochemistry students.
2. To facilitate networking opportunities between current students and alumni in the field.
3. To enhance students' understanding of potential career paths and opportunities available post-graduation.

Outcomes:

After this alumni interaction, students may be able to get the following:

1. Enhanced Understanding of Career Paths: Clear insight into diverse biochemistry career paths such as research, academia, pharmaceuticals, and healthcare.
2. Insights into Industry Trends: Understanding of current biochemistry trends and emerging technologies for future opportunities.
3. Guidance on Skill Development: Advice on developing technical, communication, problem-solving, and leadership skills essential for success.

About the event:

The Alumni Interaction event aims to provide MSc Biochemistry students with valuable insights into various career paths within the field. Esteemed alumni will share their experiences and expertise, offering guidance on industry trends, skill development, and career opportunities. Students will have the opportunity to network with professionals and gain valuable advice to shape their future careers in biochemistry.

Alumni Interaction: "Career Guidance Interaction for MSc Biochemistry students"

Date of the event: 16.09.2023

Target Students: IV Sem MSc. students

Aim of the event:

The aim of the event is to provide MSc Biochemistry students with insights into various career paths within the field.

Learning Outcome:

The Alumni Interaction Event yielded several positive outcomes for students:

1. Enhanced Understanding of Career Paths: Students gained clarity on diverse career paths available within biochemistry, empowering them to make informed decisions about their future endeavors.
2. Insights into Industry Trends: Students acquired insights into current industry trends, enabling them to stay abreast of advancements and opportunities in the field.
3. Guidance on Skill Development: Students received practical guidance on developing essential skills required for success in their chosen career paths, enhancing their employability and readiness for the workforce.

About the event

The event commenced with an opening address by Dr. Pushpa K, highlighting the significance of alumni engagement in guiding the career aspirations of students. Subsequently, the alumna, Mrs. Arya B J, working in an esteemed institution in Kerala (M.T.M higher Secondary School, shared about her professional journey, challenges faced, and key learnings. The event facilitated interactions between current students and our alumna, Mrs. Arya B J, fostering discussions on industry trends, skill development, and career opportunities.
